## GALION BANK DEFICIT FIXED AT $206,710.64

Complete Details of Examiners' Report Not Made Public.

INVESTIGATION CONTINUES

Others May Be Implicated with President in Misapplication of Funds.

By International News Service

CLEVELAND, Aug. 14 — The deficit of the Citizens' National bank at Galion, O., resulting from alleged misapplication of funds and falsification of records, was exactly $206,710.64, according to the official report of the national bank examiners which was received here today by William F. McDermott, assistant U. S. district attorney.

The report was made by William A. Taylor, chief national bank examiner for the northeastern Ohio district, who has been conducting a personal probe of the Galion bank situation.

Further details of the report, which is the result of several weeks' work, were held in secrecy by McDermott. He declared he preferred to hold the report until the department of justice investigators had completed their work at the bank.

**Silence Maintained**

McDermott did not intimate whether or not the report implicated other directors of the bank besides James Casey, resigned president, who is now awaiting a hearing before the federal grand jury on charges of falsification of records and misapplication of funds. Casey is now free on $12,500 bond.

McDermott stated, however, that if there are to be any further arrests in the case, they will not be made until after the report of the department of justice. The latter investigators, McDermott said, are conducting a general probe, as well as an examination of the bank's records, to be "certain that justice will be exacted in the case."

"The department of justice is making a very thorough investigation," he stated. "If there is anyone else involved besides the president, it will be known after the investigators make their report."

**Others May Have Had Knowledge**

Expressing his own opinion with regard to the Galion bank situation, McDermott said:

"It seems most unusual that in such a large loss, the president of the bank could have manipulated the unlawful transaction alone, and that he would be the only one who had knowledge that it was taking place.

"But the government will absolutely not take any steps against any other persons who may be involved, unless the present investigation reveals no doubt as to their guilt."

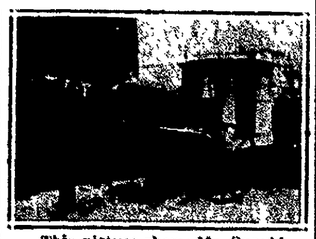
The department of justice report McDermott said, will probably not be available until the federal grand jury meets to try the case of the bank's former president. The grand jury is expected to convene about Sept. 15.

Reopening of the Citizens' National bank is regarded as indefinite, McDermott believes. The bank examiners must be satisfied that there is a sufficient amount of money available to cover the shortage before its doors are opened again, he said.

## FIRST MAN TO USE AUTO ON RURAL MAIL ROUTE IN U. S. ENDS SERVICE

Above is shown Mr. Spaulding and his 1909 Jackson automobile the first to be used on a rural mail route in the United States.

Photo by Vail Studio
WILLIAM B. SPAULDING



This picture shows Mr. Spaulding's means of transportation before he adopted the automobile. Before the auto became an established fact on the route this rig substituted for it on many occasions.

YESTERDAY may have been just Wednesday, August 13, to most folks but to William B. Spaulding, veteran rural mail carrier and patrons of Route No. 3 it was a day of farewells and the breaking of almost daily contacts in friendships built up through a period reaching nearly to the quarter century mark.

For the last time Wednesday Mr. Spaulding sorted the mail for his patrons in a case which he made himself and which has kept him company in his work during the 24 years and three months he has been employed as carrier, and with the completion of his trip around noon began a 15-day vacation which will terminate his active association with the service. His retirement is in compliance with the age limit ruling.

MR. SPAULDING'S retirement is the first recorded in the local postoffice and brings with it expressions of regret and congratulations from his associates and patrons, many of the latter having made inquiry of Postmaster French Crow regarding his continuance in service.

In spite of the fact that one day is very much like another in the life of the rural mail carrier Mr. Spaulding has seen a great many changes in the lives of his patrons, their communities and civic activities. Outstanding in his career are the facts that he never missed a day on account of illness and was the first man in the United States to drive an automobile in the delivery of rural mail.

MR. SPAULDING'S work as rural carrier began when delivery meant starting out with the horse and wagon at 8 a. m. and getting home whenever he was finished which could be anywhere from 3 to 4 p. m. in the afternoon to long after dark, all depending on the weather and condition of the roads. Upsets were common occurrences in the early days sometimes being caused from the horse becoming frightened and sometimes from the condition of the roads, but Mr. Spaulding always escaped injury and gathering up the mail finished the route. Only once does he recall having "to give up the

## COOPER TO BE LABOR GUEST

Ohio Governor Billed as Speaker at Marion Celebration Sept. 1.

A district celebration with Gov. Myers Y. Cooper as the principal speaker is planned by the Marion Central Labor Union for Labor Day, Sept. 1, it was announced today by Ralph K. Ruppart, secretary of the local organization.

The celebration will be held at Crystal lake park and will begin at 10 a. m. with games and contests for children, prizes for which will be donated by local merchants. Governor Cooper is listed to speak at 4 p. m.

James C. Shaughnessy of Indianapolis, Ind., general president of the Journeymen Barbers International Union, will speak during the evening program. A band concert and fireworks complete the day's events.

The organization at its regular meeting last night voted to accept an invitation of local churches to attend the Labor Sunday services at Epworth M. E. church on Sunday night, Aug. 31. Rev. M. L. Buckley will be the speaker. Members of the Union will meet at Labor Hall before the services and will go to the church in a body.

## BOY FLIER FORCED TO MAKE LANDING

Edward Schneider Delayed in Attempt To Lower Cross-Country Record.

WESTFIELD, N. J., Aug. 14—Edward Schneider, 18 years old flier who took off from here early this morning on a transcontinental flight, reported by telegraph that fog and rain had forced him down at Huntington, Pa., but that he would continue as soon as the weather permitted.

Schneider's message said he landed at Huntington at 9 a. m. Up to mid-afternoon nothing more had been heard from him.

Schneider took off here at 4:55 this morning in an effort to beat the junior cross country air record established by the late Frank Goldsborough, who made the trip in 33 hours and 35 minutes.

His first scheduled stop was Columbus, which he was due to reach at 11:30. Delay in hearing from him after his forced landing caused considerable concern when he was hours overdue at his first destination.

## TRIO OF GANGSTERS SHOT IN MINNESOTA

Believed To Be Connected with Kansas City Gambling Racket.

By The Associated Press

ST. PAUL, Minn., Aug. 14—The stillness of Minnesota's vacation land was pierced by gang warfare last night and three men were left lying in the road—two dead and one fatally wounded.

One of the victims was identified as Frank Coleman of Kansas City. The others were unidentified. Coleman died about four hours after he was found with four bullet wounds in the head near Wildwood, an amusement resort on White Bear lake, 15 miles northwest of here.

The assassinations were discovered by General W. F. Rinhow, head of the state bureau of apprehension who was touring the district with one of his agents after receiving reports that Chicago gangsters were gathering at cottages here.

Sprawled beside a car on the roadside, General Rinhow found the body of the first unidentified man, slain by a bullet through the back of his neck. About 50 yards away lay the body of Coleman, 200 yards further down the road the general discovered the body of the third man. Coleman was identified by his brother.

The scene of the shooting was near where George "Bugs" Moran, Chicago gang leader, is reported to have been spending some time recently.

## Woman, Called Mentor of Rum Ring, Shot Dead

By The Associated Press

HAMILTON, Ont., Aug. 14—Mrs. Bessie Perri, who as wife of Rocco Perri, wealthy self-styled "bootleg king," was called mentor of the rum ring which built up her husband's wealth during the days of the Ontario Temperance Act, was shot dead last night on the back steps of her home.

She fell under three charges of slugs, fired from two shot guns out of the darkness of the Perri garage where only a few moments before she and her husband had alighted from their automobile.

## FLIERS TO REMAIN IN AIR INDEFINITELY

Jackson, O'Brine Now 22 Hours Ahead of Record Set by Hunters.

By The Associated Press

ST. LOUIS, Mo., Aug. 14—The endurance monoplane Greater St. Louis piloted by Dale Jackson and Forest O'Brine, had been aloft 576 hours at 7:11 a. m. (Marion time) more than 22 hours longer than the previous record.

Messages of congratulation continued to pour in on Jackson and O'Brine, who yesterday regained the world's record for sustained flight which they lost to the Hunter brothers, July 4.

When Jackson and O'Brine will land remained problematical today. "I think we will be up next year if the weather and everything holds out," O'Brine radioed from the endurance plane. Both fliers have talked of remaining aloft for 1,000 hours, and it was considred unlikely at Lambert-St. Louis field, over which they are flying, that they would come down before reaching that goal if everything continues to go well.

Now that the record is back in their possession, Jackson and O'Brine clung close to the field.

"We are not getting far from the field so we can set it down, drop it down or throw it down," O'Brine said over the radio. National Aeronautics association contest rules require endurance fliers to bring their plane down on the field from which they took off to make their records official, which accounts for the precaution mentioned by O'Brine.

## PARTIES DRAW BATTLE LINES

Ohio Democrats Get Early Start with Meeting Today in Columbus.

By The Associated Press

COLUMBUS, O., Aug. 14—With the primary out of the way, Ohio Democratic and Republican leaders today drew their battle lines for one of the warmest campaigns in the state's history to sweep their standard-bearers to victory in the November elections.

Moving swiftly after yesterday's balloting in which state, congressional and county tickets were set up, Democratic state headquarters called all state nominees to a conference here this afternoon to draw up plans for the contest.

The Republicans will hold their council of war after Governor Cooper's return from Washington, where he was called to confer with President Hoover and governors of other states regarding the drouth situation.

Meanwhile, political chieftains were speculating as to the stand the Democrats as a whole will take on the prohibition question, which is certain to be an issue in the United States senatorial race between Robert J. Bulkley of Cleveland, and Senator Roscoe C. McCulloch. Bulkley was nominated in a five-cornered Democratic primary race during which he

## Detroit Has Fifteenth Gang Death in 40 Days

By International News Service

DETROIT, Mich., Aug. 14—Detroit's fifteenth gangland slaying in 40 days occurred here today as preparations were completed for a 23-man grand jury investigation into crime conditions and the slaying of Gerald E. Buckley, crime-crusading radio announcer.

The guns of the underworld had been dormant since the murder of the radio idol July 23. They barked again today when Genaro Manzipani, a fugitive from justice from New York, was shot and killed while driving his automobile.

## 40 Shots from Ambush Kill Chicago Gangster

By The Associated Press

CHICAGO, Aug. 14—Danny Vallo, notorious gunman and a suspect in the St. Valentine's day massacre, was shot to death from ambush last night.

Two men jumped from behind a clump of bushes and shot down Vallo as he alighted from his automobile with a woman companion in front of a roadhouse. Forty shotgun slugs were found in the gangster's body.

## FATHER, SON KILLED AS THEY STEAL FOOD

Shot While Making Midnight Foray on Potato Patch Near Toledo.

By The Associated Press

TOLEDO, O., Aug. 14—Elmer Tilton, 45, and his son Louis, 17, were shot to death early today while stealing potatoes from a farm near here.

Out of work since January, Tilton had taken his oldest son on a midnight foray to provide food for his wife and six other small children.

They were shot by Lester Coy, 23, grandson of the farm owner. His father, Jasper, is blind and the youth has been farming single handed.

Thieves have visited the farm repeatedly. After working all day, young Coy has found it necessary to stay up nights to guard his farm produce.

## PROTEST TO C., D. & M. AGAINST RIVER DAM

18 Farmers Warn Company That Floods Would Mean Court Action for Damage to Lands.

A protest against construction of the Scioto river dam south of Prospect was filed with the Columbus, Delaware & Marion Electric Co. today by a group of 18 farmers who own land adjacent to the river north of the dam.

The protest carries with it a notification that in the event the dam is completed and damages accrue to the lands, the farmers will look to the company for damages.

**Plan No Injunction**

With the filing of the protest, attorneys for the farmers declared it to be a substitution for injunction proceedings which at first were threatened. Such an injunction action might result in endless litigation, they pointed out, while a formal protest would pave the way for damage actions in the event the dam does affect the lands in question, they said.

The group of farmers is headed by O. W. Kinnamon, county commissioner, who owns and resides on a farm on the west bank of the Scioto river several miles north of Prospect in territory which allegedly would be

## R-100 MAKING GOOD TIME ON FLIGHT HOME

Dirigible Officers Hope To Set New Record in Spite of Crippled Motor.

13 PASSENGERS ABOARD

In Addition to Crew of 44 Men and Officers; Weather Outlook Favorable.

By The Associated Press

ON BOARD THE AIRSHIP, R-100, Aug. 14—Homeward bound, with a strong following wind, clear skies and smiling sunshine, the British dirigible today struck a pace of 75 miles per hour.

The big airship's officers expressed the belief that they would reach Cardington, Eng., home port of the dirigible, 55 hours after the start.

The airship, which left its mooring mast at Montreal last night at 8:26 (Marion time) would, if that hope should be realized, arrive in Cardington at 3:25 a. m. Saturday.

The time set by the R-100's officers would establish a new record for a lighter than air craft over that course.

The R-100 is following a northern course approximately the same as on her westbound trip.

**All Enjoying Trip**

Under clear, starlit skies, the night passed pleasantly for the dozen passengers, officials and press representatives, nearly all of whom spent most of the night enjoying the novelty of the voyage.

Today all were comfortable and finding the Leviathan of the air extremely steady. Some of the newspaper men turned in and helped the crew at various duties, including the pumping of petrol for the hungry motors.

With one of its powerful motors out of commission, the largest lighter-than-air liner in the world cast off from the mooring at St. Hubert last night at 8:26 p. m. and headed down the St. Lawrence valley.

In addition to its complement of 44 officers and men, the airship carried 13 passengers, including two official observers and a group of press representatives.

Despite the handicap of one dead motor, Squadron Leader R. M. Booth and his officers expected to make a quick crossing aided by following winds and tie up at Cardington Saturday morning.

Circling over Montreal in a last gesture of farewell, the R-100 headed down the river.

The departure of the R-100 ended a 3-day stay in Canada. The airship arrived Aug. 1 after setting a new record for the westward trip of 78 hours and 40 minutes.

Disabling of the forward starboard engine occurred during a flight over Canadian cities last Sunday and Monday. It could not be put into commission without delaying the start and Squadron Leader Booth decided to leave with the five good engines.

## OFFICIAL COUNT OF VOTES IS STARTED

Tabulation of Primary Returns Expected To Be Completed Today.

Official tabulation of votes cast in Marion county at the primary election Tuesday was expected to be completed late today at the board of elections, according to board officials.

A corps of four women yesterday began the task of checking the vote in each of the 71 precincts. Officials would not say today whether any errors have yet been discovered.

The only office that may be affected by the official count is that of county recorder in which Charles A. Markert apparently defeated Mrs. Cora McKeever, present recorder, for the Republican nomination for both the unexpired and the full terms.

Markert's margin of victory in the unofficial tabulation was so small that any errors, if discovered, might reduce or increase his lead.

It was pointed out today that H. G. Smallwood's victory over Ed. F. Tittlebaugh for the Democratic nomination for treasurer was not as overwhelming as at first supposed.

Tittlebaugh was defeated by only 193 votes instead of 644 as the figures in yesterday's Star showed.

An error discovered in the unofficial figures gave Tittlebaugh only 50 votes in the city, whereas the correct figure was 501, making his grand total for the city and county 1,176 instead of 725. Smallwood's total was 1,369. All figures mentioned herewith are unofficial.

## George Merritt Dies at Home in Country

George Merritt, well-known Marion county farmer died at noon today at his home on the Pleasant Hill road. Mr. Merritt was in advanced years.

Details of his family life and funeral arrangements were not given today. The body is awaiting arrangements at the C. E. Curtis Co. mortuary on East Center street.

## WILL RETIRE ON PENSION OF $150 A MONTH

Will End 22 Years Service on Aug. 22; Announcement Made Today.

APPOINTED CHIEF IN 1918

Acting Head of Department To Be Named by Sonnanstine.

After 22 years of service in the Marion police department, the first 10 in the capacity of patrolman and the final 12 as chief of police, J. W. Thompson of 405 West Church street will retire from active duty August 22, Safety Director T. E. Sonnanstine announced today.

He will receive a pension of $150.75 a month, amounting to 67 per cent of his present salary.

**Joined Force in 1908**

Chief Thompson became a member of the city police force on Feb. 1, 1908, as a patrolman. After 10 years of service in this capacity he was promoted to his present position by former Mayor A. J. Sautter on Feb. 1, 1918.

No provision has been made yet for the appointment of a succeeding chief of police, Safety Director Sonnanstine said today. An acting head will be appointed to fill the post of Thompson upon his retirement Aug. 22. A new chief may not be named for 10 days, Sonnanstine said.

What means will be used in the appointment of the succeeding chief of police has not been ascertained. Safety Director Sonnanstine said today that it is problematical whether he will be named by him with the approval of the civil service commission or whether he will be promoted from the ranks of the present force.

**May Give Exam**

If taken from the force it will be necessary to add one new patrolman. The succeeding chief may, however, Sonnanstine said, be chosen following a competitive civil service examination. In this case it might not be necessary to remove anyone from the present ranks of the patrolman.

Thompson said today that he was not resigning his post but was retiring as he is entitled to do after 20 years service. Having served for 20 years makes him eligible for retirement on a pension amounting to 67 per cent of his regular salary.

Thompson requested the retirement from Safety Director Sonnanstine on Aug. 6 and was granted it today, Sonnanstine said.

**Ends Controversy**

The retirement of Thompson will end a controversy between the chief and the police pension board which has been in progress for several months. Early in the spring Thompson filed a request with the board for pension. At that time it was thought probable that the pension rate might be reduced.

The chief stated at the time the request was filed that he had no intention of leaving the force. His object, he said, was to have his request acted upon and made a matter of record before the rate was reduced.

The board granted the pension but later rescinded its action when Thompson refused to retire immediately.

Thompson's last request for pension was made Aug. 6. The request was acted upon and granted by the board today.

## RAINS FALL IN DROUTH AREA

Break in Dry Siege in Many States Reported as Hoover Meeting Opens.

CONFERS WITH GOVERNORS

Cooper Reports Only Thorough Relief Program Already Under Way.

By The Associated Press

WASHINGTON, Aug. 14—Rain and reports of rain descended on the Hoover drouth conference today as governors in the dry states urged immediate relief steps.

Rains sufficient to break the drouth over large areas were reported in the Ohio valley, Indiana, Illinois, Central Kentucky, southern Ohio, all of West Virginia, which has been hard hit, and in sections of Tennessee, eastern Missouri and southeastern Iowa.

A drizzle was falling in the capital as the state executives began conferences with government officials preparatory to meeting with the President this afternoon.

**Cooper Submits Proposal**

Governor Myers Y. Cooper of Ohio today asked the federal government to match a $1,000,000 state appropriation to build roads in drouth-stricken areas and announced that a state-wide loan corporation would be formed to provide feed for farm livestock.

The Ohio governor, who came to President Hoover's conference with Percy L. Green, director of agriculture, was the only executive to report that actual comprehensive relief work was under way.

Governor Caulfield of Missouri urged Secretary Hyde to make the federal road aid money available on Sept. 1, instead waiting until Jan. 1, 1931. Governor Hammill of Iowa proposed that the farm board dispose of the surplus crops in the stricken areas as feed for cattle. He stressed the need for arranging credit for farmers for crops next year as did Governor Leslie of Indiana.

Further encouragement for the drouth areas and the conferees was seen in the weather forecasts.

**Favorable Prediction**

The predictions for tonight and tomorrow were for rain in some of the plains states, and those along the Ohio river and in sections of the southern Appalachian mountains.

The forecast also indicated showers for tonight and tomorrow in extreme southern Kansas and in western parts of that state, northern Oklahoma, southern Nebraska, extreme northwestern Texas, southern Missouri and all of Arkansas, Tennessee, Kentucky, West Virginia, and along the Ohio river.

From the conference, scheduled for 2:30 p. m., are expected to come definite relief plans and an organization for carrying these into effect.

**Has Summary Ready**

President Hoover arranged to first give the executives a summary of the exhaustive surveys of the drouth areas which have been conducted under his direction during the last two weeks. Then the opinions of the state heads themselves, and their recommendations were sought. Chairman Legge of the farm board and Chairman Bestor of the federal farm

## Two Lima Trainmen Hurt in Train Wreck

By The Associated Press

ST. MARYS, O., Aug. 14—Eight cars of a fast Nickel Plate freight train enroute from Indianapolis to Buffalo left the rails near here early today, causing the injury of two trainmen.

The injured men were C. C. Lorry, flagman and D. W. Stemen, conductor, both of Lima. They were riding in the caboose, which was thrown over on its side.

The right of way was torn up for a distance of 150 yards.

## SHERIFF HEADS POSSE

GREENVILLE, O., Aug. 14 — Search for seven prisoners who escaped from the county jail here through a basement window Wednesday night was continued today by a posse headed by Sheriff Samuel McBride.

## Two Miners Killed; 46 Entombed by Explosion

By The Associated Press

PRINCETON, W. Va., Aug. 14—Two miners are known to have been killed by an explosion which entombed 46 others in the Blackburn coal mine of the Coalmont Colliers, Ltd., near here, last night.

One miner was rescued by crews which recovered the bodies.

Rescue crews in their strenuous efforts to rescue the entombed miners rapidly dug through 300 feet of debris in a tunnel to a point where a cave-in blocked the passage, imprisoning the 46 men.

## Fish Safe Now

(Will Rogers Special)

BEVERLY HILLS, Cal., Aug. 14—See where Mr. Hoover has given up his trip to Glacier Park. They can start in letting those fish eat regular again now. Any man that can stay in Washington this long during such a summer, why really there is not enough left of him to take a vacation.

Sure glad to see Joe Robinson come through so strong in Arkansaw yesterday. Those men that he was associated with in London on the conference thought Joe was just about one of the biggest men in the country. About 1932 you are going to hear an awful lot about this guy if the Democrats decide to enter a man at all. Yours,

Will Rogers

# CONSTRUCTION WORK IN OHIO INCREASES

### Employment Gain in Building Industry for Month Above 5-Year Average.

By Brush-Moore Leased Wire

COLUMBUS, Aug. 14—Increase in employment in the construction industry in Ohio in July over June was nearly double that of the five-year average for the period, the bureau of business research, Ohio State university, reports in its monthly review of business conditions in the state.

The June-to-July gain in the construction industry of the state was nine per cent as against an average increase of five per cent from June to July for the last five years. Construction employment in July increased in all the chief cities of the state except Cincinnati, Dayton and Toledo.

In Columbus, Akron and Youngstown, Dr. Viva Boothe reports for the bureau, the increase was greater than the average June-to-July increase for the last five years. The increase of 14 per cent in Columbus is on contrast with a five-year average gain for the month of only three per cent.

"In Cincinnati, Toledo and Dayton," the report adds, "the employment declines in the contruction industry in July were in contrast to a substantial average increase from June to July for the last five-year period. As compared with July of last year, construction employment declined in all the cities except Columbus and in Stark county.

## The Stars Say—

For Friday, August 15

The planetary configurations for this day emphasize the unusual, peculiar and subtle. The influence of Neptune, the planet of the mysterious and marvelous, may assist all new projects or those negotiations which may be most successfully manouvered by secret and intriguing methods rather than by "open agreements openly arrived at." With this there should be care in signing all writings. The personal relations may be complexioned by subdued, cautious, suspicious or suppressed aspects.

Those whose birthdays it is may expect a year on which they may safely launch new plans and projects, especially if these combine with large or secret organizations or rings. But those activities involving conspiracy, diplomacy or subtle manipulations should prosper, provided there be care in signing all writings. The tendencies may be toward the mystical or curious and the personal attitude may be subdued or depressed. A child born on this day may be disposed to those things of a secret, subtle or mysterious nature, and should succeed where intrigue and strategem are important and determining factors.

## Costs 85 Cents A Month To Lose Pounds of Ugly Fat

### Thousands of Women Know This Is True

How would you like to lose 15 pounds of fat in a month and at the same time increase your energy and improve your health?

How would you like to lose unhealthy fat that you don't need and don't want and at the same time feel better than you have for years?

How would you like to lose your double chin and your too prominent abdomen and at the same time make your skin so clean and clear that it will compel admiration?

How would you like to get your weight down to normal and at the same time develop that urge for activity that makes work a pleasure and also gain in ambition and keenness of mind?

Get on the scales today and see how much you weigh—then get an 85 cent bottle of Kruschen Salts which will last you for 4 weeks. Take one-half teaspoonful every morning in a glass of hot water—do not overeat—walk a little each day and when you have finished the first bottle weigh yourself again.

Now you can laugh at the people who pay hundreds of dollars to lose a few pounds of fat—now you will know the pleasant way to lose unsightly fat and you'll also know that the 6 vitalizing salts of Kruschen (Salts that your blood, nerves and glands must have to function properly)—have presented you with glorious health.

After that you'll want to walk around and say to your friends.—"One 85 cent bottle of Kruschen Salts is worth one hundred dollars of any fat person's money."

Leading druggists America over sell Kruschen Salts—you can always get it at Bradley's Drug Store, Henney & Cooper.—Adv.

## are getting bigger tire values now than ever before!

Competitive conditions are tightening up in the tire business.

When this happens, high-powered salesmanship usually takes on an extra head of steam.

But don't be confused when the tire dealer with something "special" to sell backs you into a corner.

Just remember the one fact — after years of experience, after testing this value and that, *"more people ride on Goodyear Tires than on any other kind!"*

There must be a valid reason for this.

There is: Goodyear Tires are definitely superior, in the two main parts of a tire.

The Goodyear All-Weather Tread is superior in *traction.*

The Goodyear Supertwist Carcass is superior in vitality and long life.

**Now is the time to get YOURS**

These superiorities are not sales claims; they are real.

Any Goodyear Dealer will be glad to demonstrate the facts.

The facts certainly are: Goodyear Tires *do* give greater value.

As far back as 1916, it became a fact that *more people ride on Goodyear Tires than on any other kind.*

Every year since that time it has been increasingly true that *more people ride on Goodyear Tires than on any other kind.*

Today this preference for Goodyears runs into millions: *millions more people ride on Goodyear Tires than on any other kind.*

There can be only one conclusion: Goodyear Tires *must* be better—and at present prices they are a matchless bargain.

# Hawks Flashes Across U.S. in Fastest Time on Record

## Completes Transcontinental Dash in 12 Hours and 25 Minutes, Beating Lindbergh More Than Two Hours; Hopes To Do Even Better in Future Flight.

By The Associated Press

VALLEY STREAM, N. Y., Aug. 14 — The name of Captain Frank M. Hawks in aviation's record book today down the time of 12 hours, 25 minutes, 3 seconds for an eastward transcontinental flight, the fastest ever made by man over that distance [illegible] miles.

It is faster by more than two hours than the time made Easter Sunday by Colonel and Mrs. Charles A. Lindbergh. Their record was 14 hours, 45 minutes.

CAPT. HAWKS

Seemingly fresh and his white sports clothes unstained, Captain Hawks set his Travelair monoplane down on Curtiss field at 5:41:30 p. m. (Marion time) last night after having left Glendale, Calif., at 5:16:27 p. m. A week ago he took from R. [illegible] Turner the record for the westward transcontinental flight, making it in 14 hours, 50 minutes and 43 seconds.

**Almost Limit, He Thinks**

"I don't think it can be done any faster," said Capt. Hawks as he landed last night. "Given exceptional weather in the fall, it is just possible my time can be bettered."

A great shout went up from several hundred throats at the field here when the flier appeared overhead, cut his motor and fishtailed down to a landing. As he taxied up to the hangar, his wife and son rushed up and were the first to greet him.

"When do we eat?" he asked.

Later, when the roar of the motor had left his ears somewhat, and he could hear questions, he told of his flight, of a moonlit sky under which he took off in the west, the dawn that met him over the desert and the sun that gleamed at him first near Flagstaff, Ariz.

Always it was speed. At Albuquerque, N. M., he made his first refueling, a second at Wichita and a third at Indianapolis. All were quick and efficient. His best time, he said, was made with the aid of wind between Wichita and Indianapolis, when he averaged 250 miles an hour.

**At High Altitude**

Most of the time he flew between 9,000 and 10,000 feet up, he said.

Hawks had to "crab" it from the Mississippi east where a tricky crosswind had taken place of the westerlies.

Col. Lindbergh, at his father-in-law' home in Englewood, N. J., last night, said he was delighted at Captain Hawks' record.

"I have just learned of Captain Hawks' remarkable achievement," he said. "He has made a remarkable flight and I think it is fine that he has lowered the record."

He said he would congratulate Captain Hawks at "the earliest opportunity."

Captain Hawks said that as soon as his plane ha been overhauled he would fly it out to Chicago to compete in the national air races there beginning Aug. 22.

• • •

**NOT FULLY SATISFIED**

**Will Soon Try Flight in "Real Fast Time," Hawks Announces.**

NEW YORK, Aug. 14—Not satisfied with establishing a new transcontinental flight record of 12 hours, 25 minutes and 3 seconds, Captain Frank M. Hawks today announced he would soon attempt to cross the country in "real fast time." The new record is the fastest time ever made by man for such a distance.

# FIRE DESTROYS 3 BUILDINGS

## Neighbors Organize Bucket Brigade To Save House on Farm Near Caledonia.

CALEDONIA, Aug. 14—Damage of several thousand dollars was reported here last night when flames destroyed three buildings on the Shanon Lance from two miles east of here.

The fire, of unknown origin, started in a straw stack near the barn. The flames soon spread to the barn and to an adjoining grainery and tool shed.

The farm was being operated this year by Oliver Dillsaver. With his wife, Mr. Dillsaver had gone to Martel, leaving four children at home in bed.

The fire, of unknown origin, started by a passer-by who sounded the alarm. Neighbors organized a bucket brigade and prevented the spread of flames to the house. They also removed horses from the barn and tools from the shed.

Included in the loss were 400 bushels of oats, 80 bushels of barley and 15 tons of hay. Dillsaver had just completed threshing Tuesday.

Insurance was carried.

## 75 Persons Attend Legion, Auxiliary Picnic

Seventy-five members of Bird-McGinnis Post No. 162, American Legion and the auxiliary were present for a picnic last night at Garfield park. The time was spent socially with games and contests for the children.

The Legion post and 40 et 8 are arranging to go to Cincinnati Aug. 16-19. The 40 et 8 convention is Aug. 16-17 and the Legion meeting is from Aug. 17-19.

**Pimples on Face Caused Great Pain. Healed by Cuticura.**

"About a year ago my trouble began in the form of pimples. They would break out every so often on my face. The pimples were mostly around my chin and forehead, and caused me great pain if they were touched. They festered and scaled over, and were large and very hard. At times I lost sleep with the pain of them, and my face was quite disfigured.

"I sent for a free sample of Cuticura Soap and Ointment. I purchased more, and after using them for three months I was completely healed." (Signed) Miss Florence Welch, 19 Cleveland St., Ashtabula, Ohio.

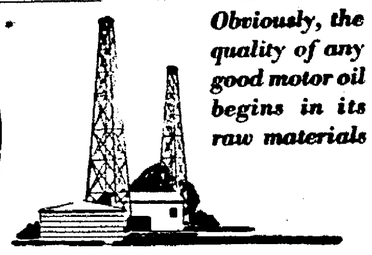
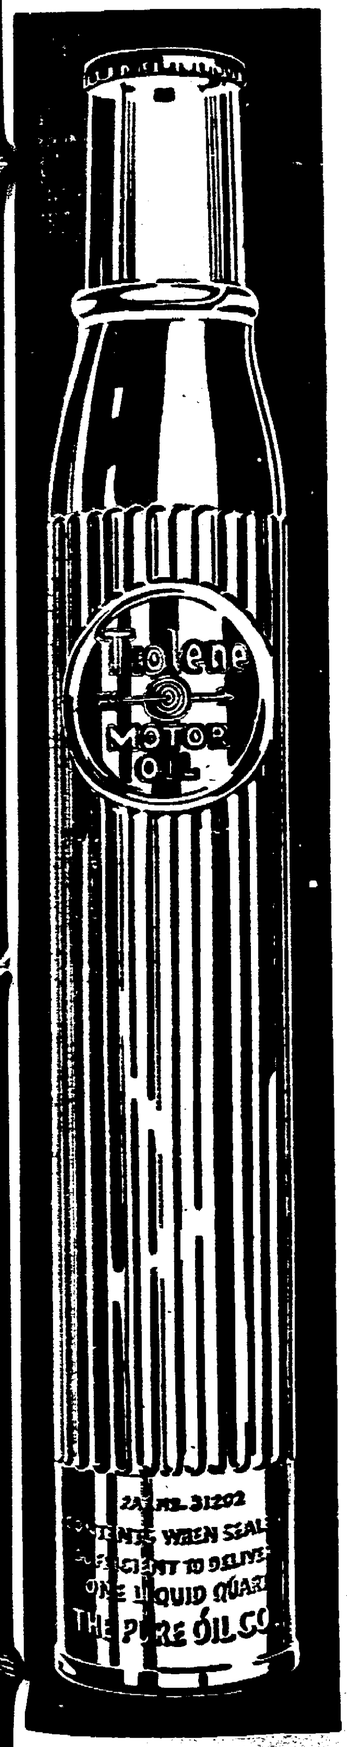
**GOOD FROM THE GROUND UP**



*Obviously, the quality of any good motor oil begins in its raw materials*



The goodness in Tiolene motor oil begins in the finest grade of Pennsylvania Crude, from which it is refined.

Nature gave to this premium crude the basic qualities from which to refine supreme lubricating oils.

Do not be misled by any inference that basic materials have no influence on finished motor oils. Tiolene is *good from the ground up.*

**Sealed**

*in bottles for your protection against substitution, short measure, dirt*

**Tiolene MOTOR OIL**

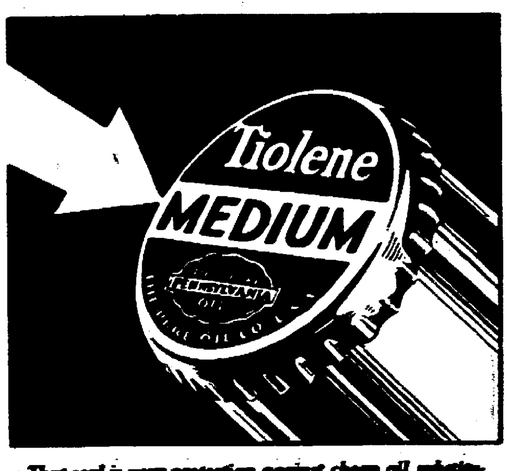
IT is important that Tiolene—supreme in quality as it comes from the refinery—should be guarded by glass until it is poured into your motor.

Investigations show that in some instances the substitution of cheap, inferior oil has reached as high as 35% to 40% of all sales.

So Tiolene is now *sealed in bottles* at Pure Oil plants for your protection. These bottles contain sufficient oil to deliver a full quart to your motor. They remain *sealed* until *opened in your presence,* when your crankcase is filled.

You see the seal of every bottle *broken* and *destroyed.* You know that you are getting rich, pure Tiolene—that substitution or short measure is impossible.

Stop where you see the Pure Oil blue-and-white signs. Ask for Tiolene, in sealed bottles, and get the motor oil that gives better protection for 1000 miles driving than ordinary oils give for 500. Tiolene is *good from the ground up.*



*That seal is your protection against cheap oil substitution. Do not accept Tiolene if the seal has been broken or tampered with.*

**Purol-Pep**
If you want more pep, more power, more anti-knock quality than you ever dreamed possible—then Purol-Pep is the gasoline for you. This is the famous premium gasoline made by the gyro vapor-phase process. A pure petroleum product. Nothing added.

**Purol Gasoline**
If you prefer a regular priced gasoline—try Purol. There is DRIVE in every drop. Just step on the gas of a Purol-powered car and you'll know what we mean by DRIVE. For power, mileage and economy—Purol meets any challenge!

SOHIO preferred 3 to 1—5 to 1—even 7 to 1 over any other brand of gasoline in Ohio! Everyone of the 8 great cars in the General Motors Group shows an overwhelming majority of its owners favoring this one motor fuel, in the statewide survey of gasoline preference. Certified results of that survey are shown here.

There must be a reason. There is! You'll find it, once you've fueled your car with **Sohio** Extra-Ethyl. Whether you're driving an old model or a "1931", you'll enjoy performance such as you've never before thought possible. Extra knock-freedom, extra power, extra smoothness, extra coolness—because of 50% more Ethyl Fluid. Try it!

MILES SEEM SHORTER SINCE JULY
When Standard of Ohio introduced Sohio Extra-Ethyl on July 1st, the thousands of Ohio motorists who used it found their cars actually covered more miles per gallon than ever before. The reason lies in the smooth, clean-burning effect of over 50% more Ethyl Fluid. The difference over all other gasolines is most easily measured in terms of knock-freedom.

If baby has COLIC

A CRY in the night. Colic! No cause for alarm if Castoria is here. This pure vegetable preparation brings quick comfort, and can never harm. It is the sensible thing when children are ailing. Whether it's the stomach, or the little bowels: if there's constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it safe for frequent use.

And a more liberal dose of Castoria always better for growing children than strong medicine meant only for adult use.

HITLER, SAID to be the most brilliant orator in Europe, not long ago in jail for political offenses, now leads an important party in Germany, expected to win many victories in the Reichtag election Sept. 14.

The Hitler program includes annulment of the treaties of Versailles and St. Germain, no more reparations payments, a powerful German army, such as Germany used to have, profit-sharing for workmen, national ownership of industry, and "a nation-wide program to disfranchise or drive from Germany all the Jews."

Before proceeding with the anti-Semitic idea, Hitler should inform himself as to what happened to Portugal when that country drove out all the Jews, sending them to Holland and England, and what happened to Holland and England after the Jews arrived, in the way of prosperity.

loan board also had a place in the deliberations, while heads of large farm organizations have been summoned to meet with the president tomorrow.

The scene of the governor's conference was the stately white room in the executive mansion where significant events in the national history have taken place.

As the governors gathered, the first large scale relief measure already was under way. Railroads were extending 50 per cent freight rate reductions to farmers in more than 300 counties in the eight states, selected by Secretary Hyde as the ones most in need of immediate aid.

### States in Area

The states named were Virginia, West Virginia, Maryland, Ohio, Indiana, Kentucky, Tennessee, and Pennsylvania.

The rates applied on feed shipped in and on cattle shipped to grazing grounds but not to market. A further list of counties to cover the entire area in need was being compiled by the agriculture chief.

On guard against food profiteering as a result of the drouth, the agriculture department undertook to put into effect today or tomorrow a system by which the consumer will have full information on the quantities of vegetables and fruit available at the principal markets. Daily reports will be issued giving the carload receipts at each point of cantaloupes, peaches, lettuce, onions, white potatoes, sweet potatoes and watermelons. They will continue throughout the drouth period.

From another angle also came assurance of protection. John Barton Payne, chairman of the Red Cross, informed the President his organization had $5,000,000 ready to prevent human suffering. He indicated Red Cross aid would be needed during the fall and winter.

## Chicago-N. Y. Whisky Plant Chain Suspected

By The Associated Press

CLEVELAND, O., Aug. 14—The possible existence of a chain of plants extending from New York to Chicago for the redistillation of low grade alcohol to be used in the manufacture of whiskies was being investigated by federal agents today.

The investigation was disclosed with the arrest here of Joseph Auerbach, 24, and four others alleged to have plotted the manufacture of whisky from a denaturant compound in an elaborate distillery. Auerbach is the son of Louis Auerbach, one of the principal conspirators in the Cain tonic alcohol division cases of 1929.

## BURNED TO DEATH

By The Associated Press

JOHNSTOWN, Pa., Aug. 14—Two 14-year-old boys who slept in a hut in preparation for a berry picking expedition were burned to death here early today. The victims were John Bookhart and John Kitka. Mrs. Mary Bookhart, mother of the Bookhart boy and a widow, awakened in her home near the shack and found the small structure in flames. She was burned on the hands, head and feet in attempting to save the boys.

ghost" and that was one winter's day when it became too dark to see the numbers on the boxes and the folks on Fountain street had to go without their mail. Mr. Spaulding's route in the early days covered 23 miles, 13 of which was dirt road, which he made by using two horses, alternating each day. Today the route includes 36.4 miles and was covered in an automobile.

It was an eventful day to the veteran mail carrier, the post-office and the patrons when he inaugurated the motor delivery. His first car was an old Jackson, purchased in 1909, and according to the owner "one of the smartest machines in town." He has owned six machines since that time.

Mr. Spaulding has served under three postmasters, M. B. Dickerson, Frank T. Campbell and Postmaster Crow. He has seen his patrons' choice in papers change from weeklies to dailies and noted the increase in the volume and bulk of mail that could have been carried on a bicycle to a good machine load. In the early days Mr. Spaulding "carried" his dinner and time and weather permitting ate it on the road. Later he arranged for taking his dinner at the home of Sam King where he got a "real dinner" and occasionally he went without a noon day meal. With the use of the automobile and the improvement in the roads it was a rare occasion when he failed to get in in time to eat his dinner at home.

Mr. Spaulding's future plans are indefinite but close friends and acquaintances hazarding a guess, figure a part of the time will be spent in hunting which has long been a hobby with him. He is one of the best known residents of the city and at one time served as a member of the school board. Prior to taking up his duties as a mail carrier he drove an oil wagon when coal oil was a household commodity and was delivered to grocery stores and individual patrons in horse drawn tanks.

Mr. Spaulding and his wife reside at 224 Duluth avenue, and he is the father of Mrs. G. F. Waddell of South Prospect street, and of N. J. Spaulding and W. W. Spaulding, jewelers.

advocated repeal of the eighteenth amendment. McCulloch, who won the Republican nomination without opposition, is dry.

Indications were that the wet and dry question would be one of the chief topics at today's meeting and it was believed in some quarters that the party might consider the incorporation of a wet plank in its platform. This was based on the fact that Bulkley showed unusual strength in winning the nomination. He polled 80,925 votes as compared with 40,041 for his nearest opponent, W. W. Durbin of Kenton. Charles V. Truax and John McSweeney had 36,775 and 35,250, respectively. George S. Myers, the dry candidate, had 19,350. Truax ignored the liquor question and McSweeney was an avowed dry.

### Will Plan Convention

Besides prohibition and other campaign problems, today's meeting had before it the task of arranging for the state convention to be held here, probably Aug. 26. Henry G. Brunner of Mansfield, is expected to be re-elected chairman of the state executive committee.

The Ohio Anti-Saloon league, through its secretary, S. P. McNaught, yesterday put its stamp of approval on the gubernatorial nominations of both Governor Cooper and his Democratic opponent, George White of Marietta. Cooper was unopposed in the primary. White, running on a dry platform, defeated Stephen M. Young, of Cleveland, a wet, 129,078 to 74,871.

On the other hand, McNaught's statement described the nomination of Bulkley as "disappointing" but predicted that Ohio's delegation to the next congress would be dry.

Official tabulation of the votes cast in the primary will be completed by the secretary of state within a few days. As a rule, however, these figures vary but little from the unofficial count.

## Chinese Reds Reported Moving Toward Capital

By The Associated Press

NANKING, Aug. 14—Communists today were reported advancing against this Nationalist government capital and the sister cities of Hankow, Hanyang and Wuchang, 600 miles up the Yangtse river from the sea.

This city was virtually defenseless and appeared doomed should the reds continue their threatened attack. Few defenders remained within the 32-mile wall encircling the capital, practically all troops having been drawn to fronts on which the government and northern rebels are fighting for supremacy in China.

A dozen foreign warships were anchored at Hankow, affording foreigners a means of escape in case of emergency. Many foreign commercial vessels also were anchored there ready to evacuate their nationals.

Changsha, Hunan province capital recently sacked and burned by communists, was reported reoccupied by reds.

## Condemned Slayer and 7 Others in Jail Escape

By International News Service

LEWISBURG, W. Va., Aug. 14—Eight prisoners, one of them a murderer sentenced to be hanged Nov. 14, escaped from the Greenbrier county jail here early today. Descriptions of the missing men were flashed throughout the tri-state district by Greenbrier county authorities and an intensive man-hunt was begun in an effort to round-up the prisoners.

Roosevelt Darnell, convicted of slaying Clarence Holbrook and sentenced to be hanged Nov. 14, was believed to have been the leader of the escape.

# AVIATOR TELLS OF PART IN BOMBING

## James Malone, 24, Confesses to Investigators of Kentucky Case.

By The Associated Press

MURPHYSBORO, Ill., Aug. 14—James Malone, 24, Duquoin, Ill., aviator, admitted today, State's Attorney Fletcher Lewis announced, that he introduced Paul Montgomery, confessed pilot of an airplane that made a bombing raid on mining properties at Providence, Ky., last Monday, to two Kentucky miners accused of plotting and carrying out the raid.

Malone was arrested last night at Duquoin and was questioned here by county and government officials until an early hour today.

Lewis said today that Essel Grant, president of a local union in Clay county, Kentucky, and Ewing Riley of Providence, were arrested last night on the strength of Montgomery's confession naming them as the two men who accompanied him in his flight over the Kentucky fields. Montgomery said, according to Lewis, that Grant and Riley tossed out the nine bombs which threw the coal field into an uproar but did no actual damage.

Five miners from Zeigler, Ill., brought here for questioning by Franklin county authorities last night were released today when they were unable to throw any additional light on the bombing.

Arrests in connection with Monday's air raid on Webster county coal mines were followed by a fire that destroyed the tipple of the Providence Coal Mining Co. at Providence, Ky., today.

The fire, described by officials as incendiary, was discovered in a shed and consumed it and the tipple and two coal cars on a siding. Loss was estimated at $50,000.

The cause was laid by Wayne Crow, a deputy sheriff who investigated it, to revenge for the arrests of Essell Grant and Ewing Riley.

## 4 Physicians Awaiting Arrival of British Heir

By The Associated Press

GLAMIS, Scotland, Aug. 14—Four physicians today were in attendance upon the Duchess of York, whose second baby has been expected for several days. Among them was Sir Henry Simson, noted obstetrician and an expert in the caesarian section. For many hours one of the physicians has remained constantly on duty.

Today was the ninth day Home Secretary J. R. Clynes had been waiting at Glamis to attest to the birth of the royal child.

Sir Henry Simson is the chief surgeon of the group. It was he who was in charge of the confinements of Princess Mary and also who ushered into the world the little Princess Elizabeth, first child of the Duke and Duchess of York, in April, 1926.

## Start Search for Girl Kidnaped by Negroes

By The Associated Press

RALEIGH, N. C., Aug. 14—Milton Rodgers, 22, who said he lives near Angier, Johnson county, reported to Wake county officers early this morning that three negroes had stopped his automobile near Ganer, six miles from here, overpowered him and kidnaped his 17-year-old girl companion.

Rodgers told authorities the girl had waved to him on a Raleigh street and asked for a ride. He said she told him her name was Viola Edlards and that her home was near Elizabeth, N. J.

Sheriff's officers immediately organized a search for the negroes.

# HEFLIN FACES HARD BATTLE

## Alabama Democratic Leaders Pledge Support to Fighting Independent Ticket.

By The Associated Press

MONTGOMERY, Ala., Aug. 14—Triumphant and trailing candidates alike in Alabama's biennial Democratic primary, in which the total vote appears to have fallen far short of the 200,000 mark hoped for by party leaders, today pledged their united support in opposition to an independent ticket headed by Senator Thomas J. Heflin.

With slightly more than 100 precincts missing 110,000 votes had been tabulated in the race for the senatorial nomination in which John H. Bankhead was conceded victory over Frederick I. Thompson, Mobile publisher.

The indicated final total would approximate the vote of 127,797 given Alfred E. Smith, Democratic presidential nominee in 1928 when the state came within 7,000 votes of joining the Republican column.

In the Democratic primary of 1926 the senatorial race attracted 216,660 votes.

It was recalled that Senator Heflin had appealed to his supporters either to remain out of the primary or vote only for county offices.

Thompson, who trailed Bankhead by nearly 35,000 votes, offered his services "in unified effort to insure that the Democratic party be preserved as the ruling and governing party authority in Alabama." The statement was made in a message congratulating Bankhead.

Heflin and Hugh A. Locke, who were barred from running in the primary under an executive committee ruling excluding as candidates those who opposed the 1928 Democratic presidential nominee, will be Independent candidates for senator and governor, respectively.

Under the name of "Jeffersonian Democrats" Heflin and Locke, with Dempsey Powell, independent candidate for Lieutenant Governor were endorsed at a mass meeting in Birmingham July 4. A state convention has been called here Sept. 1 formally to nominate the three.

## ROBBERS GET $700

LEBANON, O., Aug. 14—Two holdup men, aided by an accomplice who waited for them in an automobile, robbed the Waynesville National Bank at Waynesville near here today of about $700.

## None Injured When Car Crashes into Ditch

No one was injured when an automobile driven by Austin Morrison of 285 Duluth avenue skidded on the Kenton pike about three miles west of the city today at 1:30 a. m. and crashed into the ditch. The car is said to have been traveling east when it skidded on a wet portion of the pike and crashed into the ditch, turning completely over before coming to a stop.

The car, the property of F. B. Morrison of 285 Duluth avenue, was brought to Marion by the McDaniel Motor Co. wrecking car.

# NEW RECORDS MADE BY WOMAN AVIATOR

## Executes 714 Consecutive Barrel Rolls, Passing Mark Set by Dale Jackson.

By The Associated Press

ST. LOUIS, Mo., Aug. 14—Miss Laura Ingalls, 25 year old New York flier, today had added two new records to her collection of aviation achievements, and one of them she took away from a man.

Flying over Lambert-St. Louis field yesterday, Miss Ingalls completed 714 consecutive barrel rolls, 207 more than the previous men's record, which Dale Jackson held and 647 more than the previous women's record, which Mrs. Betty Lund held. Five official observers watched Miss Ingalls' flight and counted the rolls.

Taking the air at 4:30 p. m. (Marion time) Miss Ingalls landed three hours and 30 minutes later.

"I did it," was her first comment when told she had made 714 consecutive rolls. "Well, I thought it was only about 500. Towards the end it began to get dark and I though my wings were getting wobbly." An examination of the plane, however, disclosed the wings were as secure as ever.

"I didn't get tired at all," Miss Ingalls told reporters. "It was like getting your second wind. After the first hour I had more power than at the start."

# CREDIT CORPORATION TO HELP FARMERS

## Eight States Represented Today at Meeting in Columbus for Drouth Relief.

By The Associated Press

COLUMBUS, O., Aug. 14—Representatives of livestock marketing co-operatives in eight states met here today to incorporate a regional credit corporation that will supply several millions of dollars for carrying over livestock in the drouth stricken areas.

The new organization will be a unit of the National Livestock Marketing association formed July 14. The incorporators say the plans for the new corporation meet the requirements of the federal farm board.

The organization will serve Ohio, Michigan, New York, Pennsylvania, Kentucky, West Virginia, Tennessee and part of Indiana.

Incorporating directors of the corporation include F. G. Lyle of Hillsboro, representing the Cincinnati Producers association, C. C. Howenstine of Hicksville, representing the Buffalo Producers association, B. B. Brumley of McComb, representing the Cleveland association, and E. C. Rector of Circleville, representing the Pittsburgh producers.

# PRISONERS IN PANIC DURING JAIL BLAZE

## Belmont County Sheriff Quells Near Riot; Incendiary Suspected.

By The Associated Press

ST CLAIRSVILLE, O., Aug. 14—Smoke pouring into cells which held 65 prisoners threatened to cause a riot in the Belmont county jail last night, but prompt action of officials and firemen prevented a disaster.

The flames started on the third floor and began eating their way through to the cell tiers below. The prisoners shouted to be released for a time, but were quieted by Sheriff Ford Moore and his deputies who went through the stone structure promising freedom if the fire grew worse.

The blaze was believed to have been of incendiary origin and one man was placed in solitary confinement. A bundle of smoking rags was found where the flames started.

## Four Building Permits Issued by City Clerk

W. H. Lundergan was granted permits for the construction of two filling stations yesterday by City Clerk Sylvester Larkin. The stations are both expected to cost approximately $1,000. One of them is to be located at 323 Oak street and the other at 311 Fairground street.

Mrs. Mamie H. Frank was given a permit yesterday to construct a station to cost $3,000 at 210 West Church street.

M. H. Weaver was given permission today to erect a store building to cost about $2,000 at 254 South High street.

# OHIOAN ASKS DIVORCE FROM EX-BARONESS

## Asserts She Made Him Support Children as "European Nobility."

By The Associated Press

CLEVELAND, O., Aug. 14—Suit for divorce from the former Baroness Ally Schwarzenberg of Russia was filed here late yesterday by Dr. Edward Gauly.

Dr. Gauly charged that his wife and her two grown sons scratched and beat him in an altercation at their home last Sunday, that she required him to support her children by a former marriage "as European nobility" at an expense beyond his means, and that her conduct had reduced his earning capacity to $250 a month.

Dr. Gauly and the former baroness were married here in June, 1926. It was Mrs. Gauly's third marriage. Her first husband, a Russian nobleman, was killed in the war, and she divorced her second husband, a German officer, in Berlin shortly before coming to America.

Mrs. Gauly denied her husband's charges and asserted everything "was just the other way."

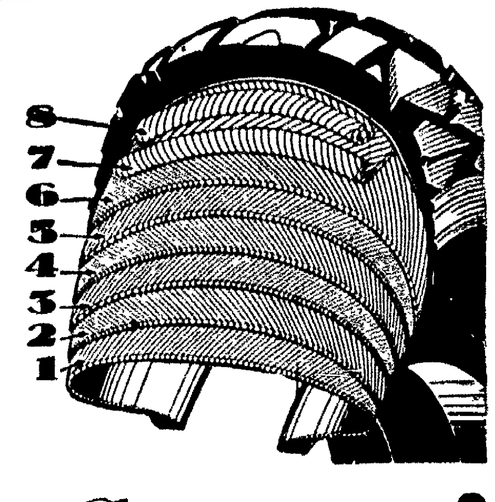
## $125,000 FIRE LOSS

By The Associated Press

YOUNGSTOWN, O., Aug. 14—Damage estimated by firemen at $125,000 was caused by flames which destroyed the H. Wollin Upholstery Co. plant and swept the warehouse of the Armour Packing Co. last night. All downtown fire companies were called out and for three hours battled to keep the fire from spreading to the nearby O. M. McKelvey department store and other buildings.

It's better to quarrel over trifles than over something important.

8 plies under the Tread



Here is EXTRA SAFETY!

FOR the high powered, high speed cars of today, with needed quick starts and stops, you should have this extra protection. Just look at the inside of this Firestone Anchor Super Heavy Duty Tire. There are eight plies of cords under the all Non-Skid, Center Traction Tread. It is a big—tough—strong tire—a construction that insures against punctures and blow-outs.

*Come In and See for Yourself!*

We have cut up various brands of tires, so that you can see the inside construction. Come in and make these comparisons, section for section, and you will readily see the superiority of Firestone.

We sell and service the complete line of Firestone Tires, Tubes, Batteries, Rims, Brake Lining and Accessories, and actually give you greater values.

Aha! Jack Pickford married again. The world may now resume the even tenor of its way!

According to a cable, King Carol and Queen Helene, of Roumania, will be crowned "in principle" October 15. "In principle." That'll be an unique garment for Carol.

In one respect, Tuesday's primary was like most of its forerunners in that it developed the fact that many of the aspirants for office only thought they were running.

From Paris comes announcement that the French wheat crop is near ruin as a result of heavy rains. With both the French and Swiss wheat crops heavily damaged, it's possible that American grain raisers may realize enough more for their wheat, which was largely harvested before the height of the drought was experienced, to compensate them for their losses in corn.

Kao Ying, former Chinese vice counsel to San Francisco, has been sentenced by a Chinese court to serve six years in prison and pay a fine of $6,000 for smuggling opium into the United States and his wife, implicated with him, has been given a four-year prison sentence and been fined $4,000. How quaint to take a little bit of consular smuggling so seriously!

Police making a raid out in Frankfort, Indiana, found whisky and tombstones being manufactured in the same room. The moonshiner probably figured that the use of one of his products would inevitably make a market for the other.

Believed to be due to traffic congestion, the Fifth Avenue Coach company, of New York City, which operates the buses there, suffered a passenger loss of 2,060,606 during the last ten months, with a consequent financial loss of $206,060.60. To the Coach people, the fly in the ointment is that they can not very well complain as their buses very probably occasion the big end of the congestion.

Miracles, we are told, are things of the past, but it's worth noting that a passenger train made up of an engine and seven cars and traveling sixty miles an hour jumped a twelve-inch breech in one of the rails of the track at Hammonton, New Jersey, without suffering mishap.

The Lindbergh 2,000,000,000 candle-power beacon, the most powerful in the world, is being installed atop the Palmolive building in Chicago and from its elevation of 600 feet its beams will be visible to pilots 300 miles away, and could be seen 200 miles farther away were it not for the curvature of the earth which throws it above the flying height of planes at a greater distance than 300 miles. Henceforth Chicago is going to let her light shine nightly.

## Worth More Than They Cost.

Commissioner of Customs Francis X. A. Elbe, during the course of his recent very interesting address on the traffic across our two border lines, broadcasted from Washington, made the very surprising statement that over 46,000,000 persons had been examined by customs agents during the twelve months ended June 30 of the present year.

The majority of the 46,000,000—to be exact, 34,615,592—came in on water craft and approximately 11,500,000 by automobile, a negligile number coming in by plane at the fourteen airports along the Canadian line and seven on the Mexican. The most important two avenues of entry for vehicular traffic were the Ambassador bridge at Detroit and the Peace bridge at Buffalo. A line on the heavy traffic over the former may be had from Commissioner Elbe's statement that last month over 114,000 automobiles crossed it from Canada. At times these cars were examined at the rate of 118 every ten minutes, a feat made possible by its twelve lines for traffic inspection. The Buffalo Peace bridge is crossed by an average of over 16,000 automobiles daily, and over 8,000 of them, carrying upward of 30,000 passengers, require customs examination.

There was some question at the time of the construction of these two bridges, and especially at the time of the construction of the Ambassador bridge, whether the traffic over them would justify the expenditure necessitated in building them. The figures give out by Commissioner Elbe remove any doubt in this regard. The traffic they carry shows that their construction was not only justified economically, but also justified by the benefits which come from bringing into closer and quicker connection the people of two friendly nations. They have proved worth far more than their cost.

## New Air Endurance Record.

Wednesday was made notable by three air events out of the ordinary. Frank Hawks lowered the record between the Pacific and Atlantic coasts by something over two hours, the British dirigible, R-100 left Montreal on its homeward trip to Great Britain and the St. Louis fliers, Dale Jackson and Forest O'Brine regained the air endurance record which had been taken from them by Kenneth and John Hunter July 4. They regained the record at 10:52 a. m., Marion time, when they had been in the air 554 hours and forty-one minutes, an hour beyond the Hunter record, the rules providing that the existing record must be exceeded by an hour to establish a new record.

The record of 420 hours made by Jackson and O'Brine July 31, 1929, was so far beyond the time of any previous endurance flight that the assumption was very general that it might stand for years. It was deemed unlikely that it would be broken for a long period in the light of the strain necessarily suffered by the fliers. The thought was that 420 hours in the air closely approached the limit of endurance. Yet that record was broken by the Hunter brothers in less than a year, and now has been broken by Jackson and O'Brine themselves in a little over a year and the extra thirty-three hours aloft of the Illinois brothers overcome in addition. Not only this, but the two St. Louis fliers do not show the slightest indication of landing. In fact, they seriously talk about remaining in the air until they have established a 1,000-hour record.

It is not hard to see merit in the flight of the R-100. It is easy to see how benefit may accrue from such exploits as that of Hawks. But it is difficult to understand what is to be gained to aviation by the present St. Louis flight. If the purpose is to show the worth of the particular motor used, that has been already demonstrated. If the purpose is to demonstrate that man has more endurance than a machine, that may be taken for granted without men subjecting themselves to the strain, the unnatural way of living, which such a flight entails. The two fliers now wearily circling about at St. Louis will feel the effects of it all their lives, which very possibly, if not probably, will be shortened by their exploit.

The exports of American motion picture films for the first six months of 1930 totaled 114,932,674 linear feet, valued at $4,127,172, against a total of 121,810,453 feet during the same period in 1929, valued at $3,331,022, an increase of 23,122,221 feet, valued at $796,150. The outside world may not like us, but it shows a marked liking for "the heights of American art."

## Hawks' Fine Achievement.

There can no longer be question regarding American transcontinental air honors. By his splendid flight of Wednesday, Frank Hawks added the west-to-east record to the east-to-west record, which he already held, and thus is the undisputed holder of both records between the two great oceans.

Last week Hawks flew from Curtis field, New York, to the Los Angeles airport in fourteen hours, fifty minutes and forty-three seconds, thus setting a new record despite flying conditions far from ideal. Before taking off from the Grand Central air terminal at Glendale, California, Wednesday morning, Hawks said he hoped to complete his flight in twelve hours, thus reducing the record made by Colonel and Mrs. Lindbergh by two hours and forty-five minutes. He didn't fully realize this hope, but driving his fast plane, which is capable of making 250 miles an hour, and favored by air conditions as friendly as they were unfriendly last week, he made the Pacific-Atlantic flight in twelve hours, twenty-five minutes and three seconds, cutting the Lindbergh time two hours, twenty minutes and twenty-nine seconds, which is about as close as he could come to realization of his hope without attaining it.

Hawks' achievement was a fine one and entitles him to every honor and benefit which may come to him as a result of it.

The Illinois city of Evanston is considering the enactment of an ordinance requiring that all milk wagons be equipped with rubber tires. Mighty fine, so far as it goes, but rubber-tired wheels will in no way deaden the noise made by milk wagon drivers as they pile their empty bottle crates upon the lawn grades of convenient street corners.

The explanation of the defeat of our old friend, the Hon. Bill Durbin, who sought the Democratic nomination for United States senator, may be that the voters felt there already are too many distinguished gentlemen in the upper house of congress as it is who are capable of legerdemain.

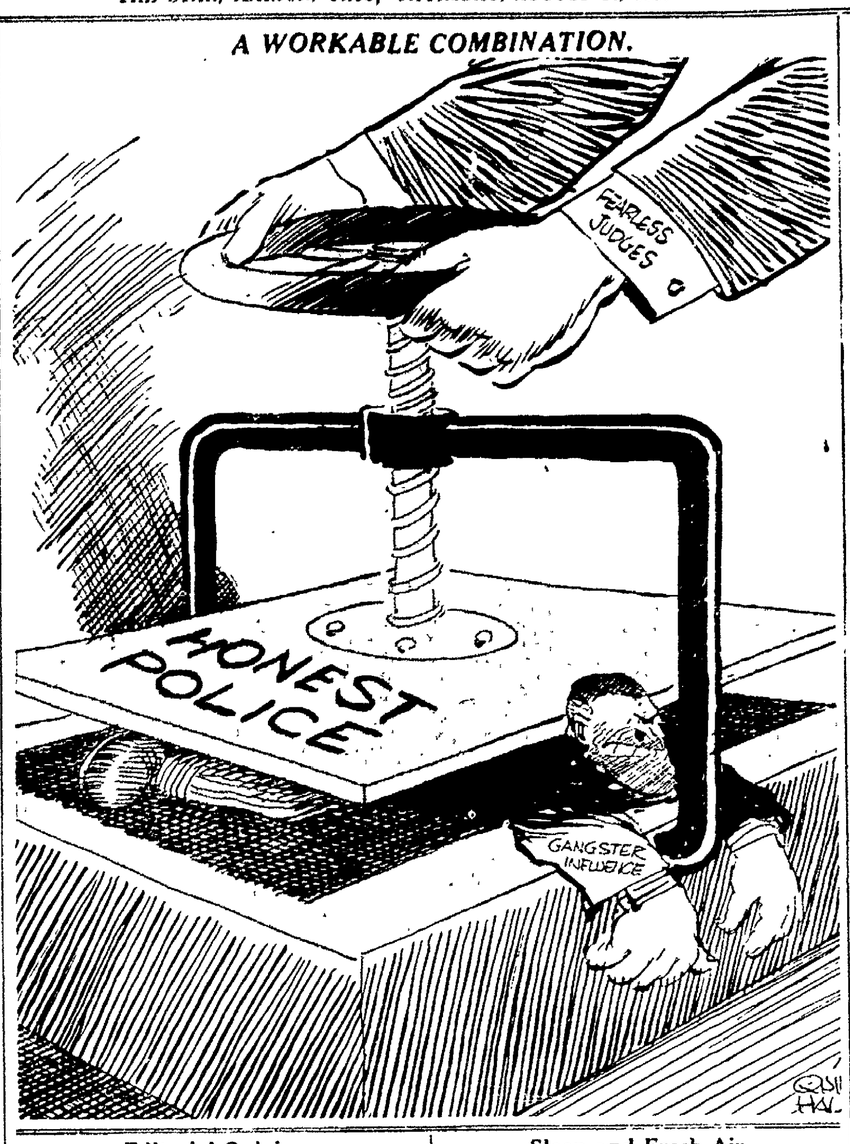
A joint report of the United States and Illinois departments of agriculture estimates that there will be a sixty-two per cent. corn crop in the Sucker state. The corn sugar people should be able to get by with a crop like that if they exercise due care and economy.

Judging by the vote in the Ohio Democratic senatorial primary, not enough people attended the circuses to be won by his stately oratory and give the Hon. Charles V. Truax the palm of victory.

A Chicagoan, arrested in the act of removing his shoes and socks preparatory to a bath in Lake Michigan, was fined five dollars and costs for indecent exposure, while the girl who appeared in the nude in the Vanities in New York City was held by a grand jury there not to have transgressed against decency. From which it may be taken that indecency is more a matter of location than morals.

The death of "Paddy" Harmon, as the result of injuries sustained in an automobile accident, revealed the fact that all the ready cash the man responsible for Chicago's $17,000,000 stadium had was $2.50 found in one of his pockets. But no matter what his lack of worldly goods, the splendid stadium stands as a superb monument to his memory.

## A WORKABLE COMBINATION.



## Editorial Opinion.

### DIPLOMACY AND DRUGS.

It may have been either Will Rogers or Heywood Broun who first said that "a diplomat is a fellow who can refuse without declining."

The latest activities of the League of Nation's advisory committee on opium points the wisdom of that observation.

Since 1922 the committee has been charged with the task of curbing the illicit international trade in harmful narcotics. As long ago as 1923 it formally accepted "in principle" the declaration of the United States that effective control could be established only through drastic limitation of production.

But after formally accepting the principle, the powers represented on the committee developed the theory that the growing of poppies and coca—the basis of all narcotics—was "a domestic question."

"It was evident that the producing nations either were unable or were unwilling to limit the production of opium and coca leaves so that there would be no surplus available for purposes not strictly medicinal or scientific," the United States delegation reported following its withdrawal from the Geneva conference in 1925. The delegation had been authorized to come home whenever it concluded that the European powers would not bind themselves to effective control measures.

But no nation had declined to accept the central measures. They had merely refused.

Last year the League council again suggested the projected limitation conference be held in December, 1930, providing, however, for postponement should any nation be unprepared at that time to present statistical data on its legitimate requirements. Through this device some of the powers once again have refused to move—without, however, declining.

Great Britain and others have advised the committee they will not be ready for the proposed meeting. The whole problem thus is thrown back upon the council. Two more years' delay, at best, is thus achieved.

Meanwhile a traffic universally condemned by enlightened opinion expands in every quarter of the globe. Writhing and ground down by a curse from which they are powerless to free themselves, China and India wallow in political and social chaos. More advanced nations pay an ever mounting toll in the atrocious crimes conceived by drug-crazed minds.

Victims walk the streets of every American city by the hundreds.

Thus do the neatly-turned phrase of the diplomatic gentlemen, who can refuse without declining, help weave new chains for the enslavement of humanity.

Against such cleverness American opinion instinctively rebels.—Columbus Citizen.

### CAPITAL'S OFFICE-HOLDING INDUSTRY.

Appointees on the federal payroll living in the city of Washington numbered 68,510 on June 30, last, an increase from 63,904 on the same date of the prior year.

The number employed by the treasury department, 13,436, is greater than those drawing pay from any other civil branch of the government. Curiously enough the next largest force, 9,418, an increase of 1,543 in a year, is that of the commerce department, one of the newest of cabinet departments, whose duties only a few years ago were discharged very satisfactorily by a mere commissioner or bureau head. Just why 6,927 appointees are required to perform the clerical and other departmental functions of the navy department, while only 4,405 are required by the war department, is not explained.

The labor department, another creation of comparatively recent years, has a force of 774 persons, while 714 suffice to do the work of the venerable state department. The gradual expansion of the branch devoted to agricultural interests from a mere bureau to a cabinet department was long a marvel to Champ Clark and the growth of its personnel to 5,255 employes now would probably not take him by surprise. The postoffice department has 4,055, the interior department, 3,606, and the department of justice, 932 employes.

The 4,606 increase in the total Washington force, 1,474 in the month of last June alone, is accounted for in large part by the work of the census. That the radio commission of recent creation has ninety-seven on its payroll and the farm board, of still more recent creation, 228, is less a cause than some other figures in the report. The war has been over for almost twelve years, and yet 180 payrollers are still credited to the alien property commissioner, thirteen to the war finance corporation and fifteen to the railroad administrator. Federal jobs, once created, are abolished only with much difficulty and after long time.—St. Louis Globe-Democrat.

## Sleep and Fresh Air.

BY ROYAL S. COPELAND, M. D.

We are meant to sleep well and often. When you sleep well, you feel well. After a night of perfect sleep you are fit for the day's work.

Sleep is evasive. When found and kept, when it becomes an unbroken habit, sleep repairs the damage done to nerve and cell tissues in the waking hours. It is a recuperative medium, and we can't get along without it.

There are many disorders of sleep; too many to include here. One of the most common is insomnia, or sleeplessness. It is due to a variety of causes. It may be due to physical or emotional conditions. It may come from a toxic condition, or a nervous condition, or mental fatigue.

Disturbance of the digestive tract is one of the most common causes for not sleeping well. Worry and anxiety of any sort is pretty sure to keep one awake.

Poorly ventilated and overheated rooms will cause great restlessness. Every one should sleep with windows wide open, and in the summer with light covering. Too much covering, or not enough, will cause wakefulness.

With children, as with many adults, insufficient nourishment will cause persistent wakefulness. One of the best things to promote sleep is the drinking of a glass of hot milk, or hot malted milk, before bedtime.

Proper habits of sleep are essential for a growing child, as they are for adults. Going to bed at a regular time helps to fix the habit of sleep.

Babies pampered by mothers and nurses and taken up at the very first cry, or for a trivial reason, very soon become poor sleepers. From the time a child is a week old it should be laid down quietly and the room darkened, when sleep comes on naturally.

In older children who are impressionable and of a nervous tendency, it is best not to read them exciting stories or have them engage in exciting pastimes in the hour just before bedtime.

It is better, also, not to have a ticking clock in the room. It is just as well for children not to know the length of time they sleep.

These are only a few of the causes of sleeplessness. There are often conditions of health and disease where sleeplessness is a marked symptom, but the common causes, which many times are easily overcome, should be attended to at once.

Sleep and rest come most easily when the senses are dulled to drowsiness.

Cultivate an optimistic spirit and teach your child to do the same. Look on the bright side of things. Banish worry, and in the natural order of things, good, sound sleep may be yours.—Copyright, 1930, Newspaper Feature Service, Inc.

"Woman is, generally speaking—"

"Stop right there, professor," interrupted a masculine listener. "You'll never get any nearer to it than that."

"It wouldn't fit? Why, I must have given you the one I usually let my husband have so that he will have to wake me when he comes in."

## Reaches Hamburg.

BY O. O. MCINTYE.

Hamburg, Aug. 14—Hamburg received the deepest wound of all in the war. First to eat black bread, the falling mark tumbled first into oblivion here. Prosperity depending so solely upon its enormous port, it was bled white, its swift rhythm clogged.

Universal commerce was obliterated by stoppage of navigation and complete loss of its merchant fleet. That it survived these blows, together with crushing terms of peace, smacks of elbow grease. The city decreased in population from a million to 700,000.

But the venturesome Hanseatic spirit crushed to death, like truth, arises. Today it tops the million mark in a remarkable comeback. That it established successfully its now famous University of Hamburg after the revolution is, too, a triumph for "Kultur."

To my notion, Hamburg is the least sentimental about the former kaiser. I might add my impression Germany's greatest hatred is for Belgium, England next, and France least of all. Germans believe that had Belgium offered no resistance they would have taken Paris and won the war in quicktime.

Hamburg's port is a bee-hive and has caught up with its before war traffic. That web uniting German commerce with all far-flung outposts of the world has again been spun. Long quays and harbor basins are alive with ships. The fastest train in Europe is between Berlin and Hamburg.

Hamburg has an exquisite setting. The Alster river forms a lake, around which the city is built in semi-circle. The lake is animated with pleasure boats and its banks are terraced and forested, giving the ensemble appearance of a watering resort.

Yet the city is all business. Rank is gained solely by personal ability. Night life is unknown, and I am told only two restaurants feature dancing. Its staid citizenry reminds me of Alfred Henking, sedate banker of our town, who was a German American.

* * *

Hamburg offers the quintessence of cosmopolitanism. Through its vast shipping it is in touch with the entire world. In a steamship office, an old friend, the Herr Direktor, talked, as I waited at his desk, in five different languages over the telephone and added a superb linguistic finish by turning to inquire in pure Broadway: "How's every little wrinkle?"

* * *

While old merchant houses remain, they are vanishing. These are long warehouses with front doors on the street and back doors facing shipping canals that thread the town. In the beginning they were a united dwelling house, office and warehouse under one roof. Modern office buildings are separating business association from family life. Hamburgians today catch trains to New Rochelles.

* * *

This is a summer overcoat town, too. At 5 in the evening an icy mistral pops us, and those caught off guard to fancy teeth chattering. In a cab to the hotel this evening Billy sat in the front seat doing the neatest hula I've seen since Gilda went Park avenue.

* * *

Hamburg and environs have not been invaded by the naked cults. Twenty-eight weekly and monthly periodicals are devoted to their aphrodisiacs in Germany. Sans clothes, they live close to nature and in proximity to every large city. It is an offshoot of after-war psychology, and in such matters the Germans are extremists. On the fashionable Tiergartenstrasse in Berlin an aristocratic mansion is given over to an institution boldly labeled: "The Institute of Sexual Science." Here rich abnormals, two I recognized as New Yorkers, are treated by suggestion.

* * *

Nature cult membership is easily acquired. Tourists, properly presented, are asked to appear nude before mixed membership in their sun salons. When I learned I couldn't even carry a cane I screamed and wrung my hands. It's all right for Adonises, but I inspire giggles even in a bathing suit. Topical revues travesty the cults, but the commonwealth refuses to interfere.

## William Harvey.

BY ARCHIBALD HENDERSON.

Not long ago, the world united in celebrating the epochal discovery of the circulation of the blood. William Harvey was one of a great group who lived in England's spacious and creative days—a contemporary of Shakespeare and Jonson. Born at Folkestone on April 1, 1578, he received the best education the age could afford. First he studied at Canterbury and Cambridge; then afterwards traveled to Padua, studying and there for five years. At the age of twenty-four he took the doctorate in medicine at the University of Padua; and later, took the doctorate in medicine at Cambridge university, where he was graduated at the age of nineteen.

In the London of James I, he established practice and had some of the distinguished figures of the day as his patients, notably the Lord Chancellor, Francis Bacon, and the Earl of Arundel. But it is clear that he was devoted, not to the practice, but to the scientific study of medicine. Harvey's specialty was anatomy; and in 1609, he secured an appointment to the staff of St. Bartholomew's hospital; and six years later he received the post of professor of anatomy and surgery.

The long studies and reflections over the movements of the heart and their consequences found expression in his very famous lectures at St. Bartholomew's, in the very year of Shakespeare's death. The earliest statement of his discoveries regarding the circulation of the blood is found in his anatomy book, as follows:

"It is plain from the structure of the heart that the blood is passed continuously through the lungs to the aorta, as by the two orifices of a water bellows to raise water. It is shown by the application of a ligature that the passage of blood is from the arteries into the veins. When it follows that the movement of the blood is constantly in a circle and is brought about by the beat of the heart. It is a question, therefore, whether this is for the sake of nourishment or rather for the preservation of the blood and the limbs, for the communication of heat, the blood cooled by warming the limbs being in turn warmed by the heart."

Harvey won a place of distinction in the life of the great capital. In 1618 he was appointed physician extraordinary to James and upon his death he became physician ordinary to Charles I. Although he had long since matured his views and often lectured on the subject, it was not until 1628 that the epochal book on the circulation of the blood was published.

Although it is generally acknowledged to have laid the foundations of modern physiology, it fell upon alien and unsympathetic ears. It was said that "he fell mightily" in his practise; 'twas believed by the vulgar that he was crack-brained, and all the physicians were against his opinion and envied him.

Another important contribution to science was Harvey's treatise, the work of exhaustive practical researches, entitled "Studies of the Generation of Animals." He showed great genius in his work, which enunciates the doctrine that all the higher animals and plants are derived from a single cell. Harvey's great generalization is still quoted in the classic phrase: Omne vivum ex ovo. — Copyright, 1930, International Feature Service, Inc.

## The Way of the World.

BY GROVE PATTERSON.

"I promise myself that for a period of one week, when discussing business conditions I will emphasize the facts that are fair and encouraging, rather than those which incite to pessimism."

The "American Lumberman" starts a "Boost Week" club with the idea of giving a psychological boost to business. It's a good plan and might well be taken by all of us in our lines. There is too much talk in this country about the people who have no jobs and too little talk about those who have money and won't spend it. There is too much fear of the next winter, and not enough appreciation of what would happen right now if so many people who can spend would spend.

This column writer gets letters from men and women who are impatient and unhappy because what they write does not get into print, and hence can not be read. Would-be writers often feel magazines and book publishers are not interested in finding new talent. They think only those with well-known names can get any attention. Of course this is not the case. Magazine editors and book publishers love to make new "finds." If you think you can write, be patient. Keep your stuff in the mail, going from magazine to magazine, publisher to publisher. If you are good, some time you will land. It is said Ben Ames Williams, a very popular American fiction writer, wrote stories for eight years before he had one accepted.

If you have a story to tell there are thousands who will leap to read it. Perhaps you never heard of Erich Remarque before he sat down and wrote "All Quiet on the Western Front." But he had a story to tell, told it simply, without flourish. One million copies in the German language were sold in a little over a year. France, England and America together took care of more than a million copies in translation. And then it was translated into Swedish, Norwegian, Danish, Spanish, Polish, Yiddish.

We live so much on legends and tradition and so little on real facts. Most of us, for example, think Iceland is very cold. Yet in many parts of Iceland the temperature rarely gets below thirty degrees above zero. The summers are nice and mild. Iceland, by the way, doesn't get its name from the fact that it is very cold there. It takes its name from a high peak, ice-capped, which is the first thing you see when approaching the island.

HEALTH BETTER THAN IN YEARS; THANKS KONJOLA

Happy Lady Finds Health After Long Search—Gives All Credit To New Medicine.

MRS. E. L. COHEE

"I suffered for many years with stomach trouble," said Mrs. E. L. Cohee, West Alexandria, Ohio, near Dayton. "I underwent eight operations in as many years and was in a badly run-down condition. Gas formed after meals and I bloated until I became short of breath. I had little or no appetite and such food as I ate caused misery. My work was a burden and no medicine I tried did me the least bit of good.

"In desperation, I turned to Konjola and this medicine lost no time in getting to the source of my trouble. After completing the Konjola treatment, my stomach troubles are over. No gas forms in my stomach after meals and I do not bloat nor become short of breath. I sleep well and am in better health than I have been in years. All this is due to this wonderful compound, Konjola."

Designed to afford lasting relief from ailments of the stomach, liver kidneys and bowels, and rheumatism, neuritis and nervousness, Konjola continues to be the most talked-of medicine in America.

Konjola is sold in Marion, Ohio, at Stump & Sams Pharmacy and by all the best druggists in all towns throughout this entire section.—Adv.

## 2 SOCIETIES MEET

Election of Officers, Musical Program Features of Sessions.

RICHWOOD, Aug. 14—The Ladies' Aid societies of both the M. P. and the M. E. churches met Wednesday afternoon. Mrs. R. D. Roberts, Mrs. Carl Dixon, Lelah Clark, Mrs. D. L. Hitt and Miss Margaret Francis were hostesses to M. P. Aid in the church parlors. The business meeting was followed by a program: music, Lelah Clark, xylophone, with Mildred Dixon at the piano; piano duet, Mildred and Starling Dixon; music, piano and accordion, Lelah Clark and Mrs. Estella Gaston. Mrs. Charles Fryman gave a reading, "The Farmer's Wife" was a reading by Mrs. Holly Thomas. Refreshments were served.

Mrs. M. L. Hanley had charge of the devotionals when the Ladies' Aid society of the M. E. church met at the home of Mrs. Frank Schertzer. The meeting opened with song. Yearly reports were read and election of officers was held as follows: president, Mrs. A. J. Miller and Mrs. F. L. Cramer; vice president, Mrs. Ila Kyle; secretary, Mrs. Stanley Peet; treasurer, Nellie Long and Mrs. Eva Winter; auditing committee, Mrs. Lloyd Winter, Mary Hastings and Mrs. Frank Schertzer; program committee, Mrs. A. L. Graham, Mrs. Frank Winter and Mrs. J. B. Barker. The next meeting, Sept. 10, annual dues paying day, will be held with Mrs. A. L. Graham.

## Picnic, Monthly Meeting Held by Church Society

NEVADA, Aug. 14—About 40 members and guests were present at the annual picnic of the Woman's Missionary society of the Lutheran church Tuesday at the John Weidenmire home east of town.

The regular monthly meeting was held in the afternoon. Mrs. Weidenmire conducted the devotionals and Mrs. Richardson offered prayer. Mrs. Weidenmire also had charge of the lesson topic, "Migrants and Lumberjacks." Miss Mary Zulauf led the magazine quiz. The September meeting will be held at the home of Mrs. Edith Aten, northeast of town. Out-of-town guests at the picnic were Dr. and Mrs. Carl Weidenmire of Berlin Center, Mr. and Mrs. C. C. Sauer of Bellevue and Mrs. Ella McBride, of Ridgeway.

## Chic Star Patterns

*Practical and Simple*

*Exquisite Afternoon Frock.*

PATTERN 1993

Both collar and skirt flare point to chic in this ravishing summer frock. An unusual feature of the cape collar is the shoulder seam which may be closed entirely to the end if desired, thus covering the arm almost to the elbow. There are sleeves with the pattern, also.

Pattern 1993 makes up beautifully in chiffon, georgette, voile, swiss or organdie. Pastel shades are cleverly combined to create the most glorious fabrics that are cool and refreshing on warm days. Today's model has a narrow belt and bodice bow of black velvet ribbon that is indeed chic.

May be obtained only in sizes 16, 18, 20, 34, 36, 38, 40 and 42. Size 16 requires 5¼ yards of 39 inch material.

No dressmaking experience is necessary to make this model with our pattern. Yardage for every size, and simple, exact instructions are given.

Send FIFTEEN CENTS (15c) in coins carefully wrapped, or stamps, for each pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE

COUPON

This pattern will be sent on receipt of 15 cents. Make number, name, address, etc. plain. Send to the pattern department THE MARION STAR BUREAU, Pattern Fashion Syndicate, Inc., 243 West 17th St., New York City.

**Enjoy All Cod Liver Oil's Benefits**

**Take Tablets Free from Fishy Taste**

Scientific wonders never cease—in fact they have only just commenced. An ingenious new mechanism has been invented which shows how ripe a peach is.

Still another clever invention successfully extracts the flesh, bone, strength and energy increasing elements from pure vitamin-tested Norwegian cod liver oil and puts them into sugar-coated tablets.

They are called McCoy's Cod Liver Oil Extract Tablets—all druggists have them for sale—and there isn't a man, woman or child with a thin, weak body or rundown system who can't get at least the same benefit from McCoy's as from the finest cod liver oil. The only thing missing is the fishy taste, which nobody likes.

Mrs. Henry H. Manchester of Maywood, N. J., who says that most children hate liquid medicine but that it is easy to give them tablets, finds McCoy's wonderfully beneficial for promptly increasing the weight and strength of her little son. Is it any wonder when you consider that every last weight and strength building element found in cod liver oil is also present in McCoy's in a form that the most delicate stomach easily tolerates?

McCoy's have been tested and approved by the Good Housekeeping Bureau of Foods, Sanitation and Health. And Henney & Cooper guarantees them—60 tablets, 60 cents.—Adv.

"I ... in and speak to him." she ... abruptly. "No, you needn't come, James. Please find out of Mrs. Vaneering has all she needs, and don't let the doctor go without seeing me."

Outside the portieres, she halted an instant to compose her face, for her lips had commenced to work in a queer way she found most disconcerting. Then she pushed the hangings aside, and stepped into the dim light of the big room. Opposite her a major in the uniform of the air service stood up with an embassassed celerity, his hawk's face wrenched by an expression of pity.

"I'm Major Broderick, Mrs. Vaneering," he said hestitantly. "I—"I—"

"The butler told me," she said faintly. "Is he—really—"

"Yes," he answered, looking away.

"Was it—immediate?"

"Yes," repeated the officer. "I'd gone over to the field with him—he and Olny were trying out that new six-motor plane. They had a muddy runway, and somehow the ship turned a somersault on the takeoff. Smashed both of them."

"Was he sober?" she asked deliberately.

"Absolutely."

"I'm glad of that," she said with difficulty.

"I can't tell you how I—Look here, can't I do something for you? Is there anyone you want me to fetch here?"

"No thanks," she replied, after a moment's reflection. "You might—That is, the arrangements at the field—"

"That's all taken care of," he assured her.

"Then I don't think there's anything more, major."

She rose as slowly as she had seated herself, and he took her arm.

"A woman ought to have done this," he muttered. "Do you feel all right? you aren't going to faint?"

"I'm a flier, myself, Major Broderick. It's just—well, this is what flying means to some."

"You're a woman," he said. "I—if you don't mind, I'll stay—newspapers, and all that."

"Thank you," she assented. "That would be kind."

Out in the hall James awaited her.

'Mrs. Vaneering is quiet, now, Mrs. —" He checked himself visibly— "Maam. The doctor gave her something. You—you'd best lie down, and let me send him to you."

"Perhaps you had, James," she said listlessly.

Going up in the lift, she had the one refrain running through her mind:

"Poor Jack! To end like this. And sober. Poor Jack!"

But as her weeping maid met her in the hall, a second thought pierced her consciousness like a lance:

"I'm not married! I'm a widow!"

Strange and shocking implication; a familiar personality gone utterly; old ways, old habits left without point or reason; her whole life to make over again. Her heart fluttered wildly. If only she might weep with Marie!

Bizarre were the days that succeeded Jack's death. Dagger moved through them in a daze, yet a daze which in no wise confused the clarity of her perceptions.

She was honestly dismayed by the tragedy. Death blurred the outlines of Jack's weaknesses, threw into high relief the lovable qualities of his character. And she was sufficiently honest to be disturbed by the letdown in nervous tension which accompanied her grief. For, sorrow as she might, she wasn't as cast down as her mother-in-law, and Mrs. Vaneering was as sensible of this as she, herself.

Jack's death had severed the only tie between the two women. Mrs. Vaneering's origina prejudice against Dagger had never been overcome, and now it was intensified by the discovery that under the terms of her son's will his widow was to inherit his entire fortune, including the millions left him by his father.

Nothing Dagger could say would serve to reconcile her mother-in-law either to this fact or to her own personality. And as soon as she decently could, she moved out of the Vaneering home. Kitty had invited her to Detroit, and Uncle Jim and Aunt Espy had telegraphed summonses to return to Texas; but in her present mood she wanted to be by herself.

She felt as though she had been spiritually bruised; her heart ached, and her mind was numbed and uncertain. People bothered her—that is, individuals. She preferred to remain in the city because of its immensity, because she could slip unidentified into the endless streams of humanity that flowed through its streets, one of the innumerable chips tossed here and there by the turgid current of life.

No plans occupied her. She merely ate and slept, read enormously, walked in unfrequented byways, drove her car miles into the country. Only her lawyers had her address.

This phase lasted for several weeks. It was interrupted by a cable from Dick in Paris:

"Just heard your loss Dearest' Dagger do come Paris Emily and I will do all in power divert you With much love yours always Dick."

She read it over a second time, and a burst of energy dispersed her lethargy. Darling old Dick! The one friend she could rely upon in such a time, the one who'd understand, who'd be silent when she desired silence, who'd supply amusement when she was bored.

To see him, to be with him, she'd even accept the company of that pale ghose-wife of Blaine's. Poor thing, this Emily deserved a share of happiness after so many years. Who could appreciate that so much as Dagger? Who should begrudge it to her less?

There was much to do, but the doing of it pleased and excited her. She and her maid packed, bought tickets, secured passports, and a week after Dick's cable reached her she stood on the deck of a great French liner backing out into the stream.

The gay throngs of pessengers, the comfortable living quarters, the courteous officers, the throb and pulse of the engines, above all, the feel and smell of the sea, ravished her. She cast off tragedy's burden, and resolved to exploit this new life so much as was feasible for a young widow, whose mourning exaggerated the slim youthfulness of face and figure.

It was exhilarating to Dagger, and exhilaration was what she needed. In three days her recent troubles were a dark cloud on the horizon of the past.

It wouldn't do to settle into a narrow rut. She must travel, meet people of all races, all degrees, study different civilizations and different countries and religions. That was what Blaine would have had her do.

## Love's Reawakening

*A Wife's Triumph Over Jealousy*

—BY ADELE GARRISON

**Madge Is Puzzled**

"I WOULDN'T go down into that dining-room again for anything you could offer me," I told Lillian firmly, when she had told me that I must not telephone Helena Brixton so early, and suggested my going down with her for a second cup of coffee.

"Why?" she asked, then grinned. "Old Phil didn't stage any public declaration, did he?"

"Of course not," I retorted tartly, but I could not control a flush at the remembrance of his embarrassing furtive caress of my hand.

"Well! something's on the well-known beam," she said, and I was thankful that she had ignored the flush. "And I'm not proud. Also I have chow money and taxi fare. Fly with me, dearest, to some other eating-place far from Philip Veritzen and his naughty ways. It won't take either of us a minute to put on our wraps."

**Eluding Phil Veritzen**

I hesitated only for the fraction of a second. She was right in saying I could do no telephoning before 9 o'clock, and I knew of nothing that I wished more to do than to tell Lillian of Philip Veritzen's apparent change of attitude toward Noel and Mary, and to get her keen appraisal of the situation.

"I'll be with you in a minute," I said, and, indeed, it was little more when I was out in the hall again. She came from her own door a few seconds later, and threw up her hand in acknowledgment of my superior dispatch.

"Do you want to go down the service elevator?" she gibed. "Old Phil never takes that, to my certain knowledge."

"Don't be absurd," I said. "But if we meet him——"

"Dispose of him with efficiency and dispatch," she finished. "Don't worry! I'm the most effective little incinerator going."

But there was no sign of Mr. Veritzen either in the elevator or in the lobby, and I joined Lillian in the taxicab with the feeling of a truant escaped from school.

"Where shall we go?" she asked as the driver waited for directions.

"If you don't mind, I'd like to go near that florist — you know"—I named the man I wished to see about the decorations for the party. "Then at nine o'clock I can go to see him."

"All right, Efficiency Edgar," she laughed. "As it so happens, there's the spiffiest coffee house with the best food very near there. Otherwise you'd roam farther afield, for I'm ravenous, and I crave nothing but the best. I'm sure you'll like the place."

"I've breakfasted," I reminded her.

"I'm not contradicting you, but since when have you been refusing an extra cup of coffee in the morning or any other time?"

"Since never," I answered, laughing, and in a few minutes we were seated opposite each other in the restaurant. Lillian cannily had chosen a corner table in the least attractive part of the restaurant. Thus there was no one within hearing distance, even if we had not spoken in the almost inaudible tones to which we trained ourselves while I worked under Lillian in the Government Secret Service during the World War.

"Now," she said, when she had given her order, "begin at the beginning. I'm simply dying of the ailment which killed the poor old cat."

"The beginning was very early this morning," I said ruefully, and then I rapidly sketched for her my various interviews with Philip Veritzen, omitting no slightest word or incident save only the attempt to kiss me in our sittingroom and the furtive caress he had given my hand in the hotel—dining-room.

"And that's all," I said at last when I had told of Mr. Veritzen's proffer of flowers and his request that I tell him the color of the gowns which were to be worn by the women of the party.

**A Startling Retort**

"All that you mean to tell me," she said shrewdly. "But that's all right. I don't blame you for omitting the old lad's pathetic attempt to start a petting party. And nobody can blame him. But if you're wise, you will omit to think about 'em also. Just concentrate your mind on those flowers Phil's going to send up. Boy! am I going to be at that dining-room when they arrive? Just watch me. And also, old dear, you needn't trouble to tell him the color of my gown. I'll impart that information to him, myself. Incidentally, it will black lace, and I know exactly the shade of orchids I want. I'm going to get them while the getting's good."

She was so like a gamin in her zestful appreciation of her old friend's munificence that I could not help laughing. She looked at me speculatively.

"That's all right. I know I'm a 'gimme.' But what will you bet that Edith Fairfax won't also say she'll tell him herself about the color of her gown?"

Her retort startled and puzzled me. For the moment I had forgotten that Dicky's business partner was to be included in the party. But Lillian did not know that, and I wondered why she had dragged Edith's name into our discussion in so palpably forced and clumsy an allusion.

## Jubilee's Pardner

• • •

*A Story of Humorous Boyhood Adventure*

By JUDD MORTIMER LEWIS

IT rained and thundered and lightninged all night last night, and it was still thundering and lightning this morning when I let Jubilee down, and when I went out with the milk pail to milk the dummed brutes the sky was all one blue-black cloud, and then we heard something, and we all stood in the front of the barn looking up, because we could hear an airplane' propeller going, but it must have been up above the clouds; and then there was a big flash of lightning and we all ducked into the barn, and I milked the cows and took the milk in and was setting down to the table and the foam rang and my father answered it; and he said to the rest of the family that an airplane full of people had been struck by lightning and had fell two miles and landed in Wenham's pasture so hard that the engine was buried out of sight in the ground and all the people killed.

I jumped up and grabbed my hat, and then my father hollered at me and asted me where I was going, and I said I was going to Wenham's pasture, and he told me I wasn't going to do anything of the kind, and for me to keep away from there, but when I had et my breakfast and went out to the barn and told the bunch about it they all lit out, and I had to take my cows out to the pasture by myself, because it was raining and the girls couldn't go, and when I got out there I went in swimming, but that isn't much fun when a fella is alone. Then I went around past Frenchy's to peek through the window at the squirrel, and there was a man sneaking around the house, so me and Jubilee stood back and watched, and pretty soon he broke a window with a rock and opened it and clumb in, and I ran in the house I was peeking around the corner of, and told a lady that was there that a burglar was in Frenchy's and she foamed to the police and we watched the house and then here came a whole auto load of police, and they stood around the house and a couple of them clumb through a window, and everything was still for a long time and then we heard a gun go off three times, and then the door opened and the police came out with the man walking between them with handcuffs on, and there was blood running down his face, and me and the lady went out to see them and she is kinda good looking, so a policeman stopped and told her the man was an escaped convict, and then they went away, and me and Jubilee went in Frenchy's, and there was some bread on the table and a frying pan on the stove with something in it, and when I looked at it I turned and looked at the squirrel cage and it was empty; and then I found the squirrel's skin in the wood-box, and then me and Jubilee sot down and cried. I felt worse than Frenchy did when I told him about it. He et it, I couldn't have done that. But that was better than wasting it after the burglar had cooked it.

# BRIDGE SALE TO BE TUESDAY

### State Highway Department To Take Bids for Project on Route 23.

Sale of a bridge on Route 23 over the Little Scioto river near Brush Ridge has been set for Tuesday, Aug. 26, by the state highway department, according to information received by County Surveyor Cecil R. Leavens.

The bridge will necessitate the changing of the river channel and is a part of a curve elimination program at that point in the road, Leavens said. Two right angle curves will be almost eliminated by the construction of the bridge and its approaches.

The project will cost more than $50,000, according to estimates. Cost of the bridge and work on the channel is estimated by the state highway department at $32,170.65, while paving of the half-mile of road to be built as approaches to the bridge is estimated at $27,265.55 for concrete and $25,428.45 for macadam.

Traffic will be maintained over the route during construction of the new bridge and roadbed, Leavens said.

### PAYS $100 FINE

B. F. DeWees of 157½ North State street pleaded guilty in municipal court yesterday afternoon to illegal possession of intoxicating liquor and was fined $100 and costs by Municipal Judge William R. Martin. DeWees paid the fine and was released from jail. The home of DeWees was raided yesterday by city police who found about one gallon of alleged beer.

# ROTARIANS WITNESS BOY SCOUT PAGEANT

### Members of Troops Now in Camp Will Present Show Again After Honor Court.

"Some Pages in History," a pageant worked out and presented for the first time by Boy Scouts now enjoying a two weeks period at Camp John A. Owens, south of the city, before members of the Rotary club Tuesday night will be presented Friday night following the court of honor.

Approximately 50 Rotarians and their families were present at the camp Tuesday for the supper and pageant. The visit of the Rotary club is an annual affair at the scout camp, this being the fourth time members of the club have made the visit. Following the dinner period, a life saving exhibition was given by a number of Scouts, in charge of King Porenmire.

The pageant which was the feature of the meeting was presented on the bluff back of the swimming pool. It was presented in three episodes, each of which depicted different phases in the life of the country. The first episode showed the unmolested life, customs, and traditions of the American Indian.

The second episode depicted the clash between the white and the red races, and the burning of Colonel Crawford at the stake, Colonel Crawford being called the Scout of yesterday. The final episode showed the scout of today. A vision down the years showed what the scout of the future is expected to do.

The court of honor, which will also witness the pageant Friday, is held at the close of each camp period to bestow honors on the scouts winning them during the period. All scouts from the city and members of the council of Harding Area will be present Friday.

# RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day brt bL. Get 24 for 25c today at the nearest Rexall Drug Store. C. G. Ungericht.—Adv

### WIFE BRINGS CHARGE

Curtis L. Brady of Silver street was arrested yesterday by police on a charge filed by his wife, Bertha L. Brady. Mrs. Brady charges that on June 1 her husband deserted her and refused to support her. Brady was to be arraigned before municipal court Judge William R. Martin today on a charge of abandonment.

### FACES COURT CHARGE

Howard Dawson of Columbus was arrested yesterday by police to answer a charge of obtaining groceries under false pretenses, preferred by Elmer Flach of the Flach Bros. grocery. Flach charges Dawson with having misrepresented facts in order to recently obtain groceries having a value of about $7.71.

## *Bandits Kept on Jump by Embattled Citizens*

By The Associated Press

WASHINGTON C. H., O., Aug. 14—Three men who held up a filling station last night and took $46 had a hard time evading the law.

After the robbery the trio headed for Jamestown in a car. The citizens had been notified to arrest them. The village barricaded the streets and when the holdup men arrived they were forced to turn their car around on a lawn. Then they headed for South Solon, where they abandoned their stolen car and took another and headed for South Charleston. At South Charleston they were greeted with a volley of shots from citizens who were on the lookout for them.

Apparently they escaped unhurt, as the last time they were seen, they were headed for Dayton as fast as they could travel.

# GROCERS, PROSPECT DEADLOCKED AGAIN

## COMMERCIAL TEAMS BATTLE TO 4-4 TIE IN BENEFIT CONTEST

**Somerlot Holds Firemen to Trio of Hits, but Walks Are Costly.**

BY BOB ELLIOTT

Ho-Hum! Those Serv-U-Wel and Prospect baseball teams are at it again. Yes sir, another tie. This time the score was 4 to 4 the game being called at the end of the eighth inning, this making 28 complete frames these two teams have played trying to finish their second round engagement. The first game went 11 innings to a 2 to 2 tie, the second nine innings to a 10 to 10 deadlock and now last evening's eight-inning fray, ending 4 to 4.

The scoring last evening was confined to two innings, the Firemen scoring all their runs in the first half of the second while the Grocers waited until the last of the sixth before they unloosened an attack on Dutch Lauer that tied up the game.

**Too Many Walks**

Walks beat Somerlot, the Grocer pitcher, as he gave up only three hits in the eight innings, and received good support. On the other hand the Serv-U-Wel team drove out nine safeties off Lauer but couldn't bunch them except in the sixth.

Prospect started the second when Chapman singled into center. Thomas Johnson and Lauer then walked in succession, the latter pass forcing in Chapman with the first run. Then Seiter, Prospect third sacker, lined a hit into left for three bases, cleaning the sacks. Somerlot got his control back and forced Houser to pop to Walters, Mantz to fly to Neal and struck out T. Lauer.

After that the Firemen didn't have a chance except when Somerlot started walking them again. The Grocer moundsman didn't give up a single hit after the third inning, only three men reaching first in the last five frames, these all by walks.

**When They Started**

The Serv-U-Wel boys were docile enough against Lauer up to the sixth but then got started. Neal opened with a double into center and Somerlot drew a walk. Marshall's single sent Neal across, Somerlot taking third. Shields hit to Chapman whose throw to Johnson caught Somerlot, Marshall going to third.

W. Jerew hit to Chappman who made a perfect throw to first only to see T. Lauer drop the ball, Marshall scoring, Shields going to third and W. Jerew taking second. O. Jerew popped to Chapman for the second out but Smallwood lined a hit over shortstop scoring Shields and W. Jerew with the tying runs. Walters doubled into left sending Smallwood to third but Conkle went out Lauer to Lauer.

The Grocers had a good chance to win the game in the eighth but with two out and the bases full, Neal popped out to Johnson.

**Gate of $37.60**

The receipts at the game which was played as benefit tilt for Bill Steinmetz, Grocer left fielder, who injured his leg in a recent game, totaled $37.60. This amount was much better than those arranging the game expected.

These two teams will probably not play off the tilt unless the Prospect team succeeds in defeating the Kappas tomorrow night. If this happens, the Firemen and Grocers will have to play as the pennant will hinge on the result.

Fielding honors of the game last evening went to Seiter, Prospect third sacker, who accepted ten out of eleven chances and Chapman, Prospect shortstop whose one-handed stop of O. Jerew's hard grounder between short and third stopped a possible Grocer rally.

## BIG BILL UP AGAINST COLLEGE NET FLASH

**Tilden Battles Clifford Sutter in Quarter-Final Round of Tennis Tourney at Rye.**

By International News Service

RYE, N. Y., Aug. 14—Life for Big Bill Tilden these days is just one battle after another with some ambitious youngster anxious to knock off the old master and list his name among the select few who can say, "I have beaten Tilden."

This afternoon in the quarter-final round of the eastern grass court tennis championships at the Westchester Country Club, it will be Clifford Sutter, 19-year-old Tulane university varsity captain, who will attempt to put the skids under the leader of the old guard.

Although the old master is a favorite against Sutter, Big Bill's veteran doubles partner, Frank Hunter, enjoys no such favored position in his match with Johnny Van Ryn, youthful Davis cup star who smothered Eddie Jacobs yesterday in two easy sets.

Dick Murphy, the youngster who put out Junior Coen at Southampton last week is slated to oppose Berkeley Bell, and Clayton Burwell, North Carolina, is listed against Gregory Mangin in the other quarter-final matches.

The Baroness Giacomo Giorcio Levi added Ruth Oexman, Cincinnati star, to her list of victims in the third round, and she is a strong favorite to conquer Dorothy Andrus, the Stamford heiress, and enter the semi-final round.

Alice Francis, whom the Baroness will probably meet in the semi-finals, and Mary Greef and Midge Gladman, ranking players in the upper half of the draw, no more like opposing a chop-stroker than did Ethel Burkhardt, the California star who lost to Baroness Levi on Tuesday.

## RICH OPEN ATTRACTS STAR PRO GOLFERS TO ST. PAUL COURSE

**Tourney Starting Friday worth $10,000 to Winner; Tough Layout.**

By The Associated Press

ST. PAUL, Minn., Aug. 14—Arriving by plane, automobile and train the country's top flight professionals began their last serious workouts today on the Keller Course, where the St. Paul $10,000 open starts Friday.

Flocks of birdies and eagles have sprung from the 6,552 yard par 72 layout since yesterday, with the result several have nominated themselves pre-tournament favorites. Johnny Farrell, Mamaroneck, N. Y., heads the list by virtue of a 67. Behind him comes Gene Sarazen of Flushing, N. Y., who carded a 68, and Harry Cooper of Glen Ellyn, Ill., with a 69.

Johnny Dawson, unattached Chicago player who is trying to convince United States Golf Association he is an amateur, is ranked among those who are expected to finish close to the top by a virtue of a 69 Tuesday, but he needed a 73, one over par, yesterday.

Walter Hagen, and Tommy Armour, who are expected to arrive today, will be among those applying the final test to the course, which is expected to draw 280 participants for the four rounds.

## MALLOY OFFERS GOB FLAT GUARANTEE OF $125,000 FOR FIGHT

**Carnera for Proposed Scrap; Money Doesn't Worry Him.**

BY DAVIS J. WALSH
I. N. S. Sports Editor

NEW YORK, Aug. 14—With a single unimportant exception—he was only one of the prize fighters—everybody seemed agreed today that the Sharkey-Carnera fight had practically been made for Chicago on the night of Sptember 29 and may Allah protect the ring's foundations.

Carnera, his manager and the managers of his managers were for it. So was Miguel Malloy, the new boy from up the block who has come down to play on the Garden's sidewalk. Johnny Buckley, who manages Sharkey after business hours, said he was for it as he bowed himself off the asphalt on to the midnight train for Boston.

To be frank, he was speaking strictly for John Buckley. When the time comes, he will speak for Sharkey directly after Sharkey speaks for himself.

**Plenty of Backing**

A nod of the latter's head, it seems, now stands between Miguel Malloy and his first time in the course money. His backing? Mr. Malloy is glad the question is asked because, it appears, his backing is everything a man could wish. He isn't worried about his backing because he is fronting for a certain somebody and, looking him over from left to right, one has to admit that he has an ideal front. Anyhow, the Sharkey agents are convinced that Miguel's credentials are quite in order and so is the writer.

Sharkey's hesitancy at the moment is a mere matter of incentive. He must fight at this time only for the sake of staying in the money, whereas Carnera must fight to stay in the country. They were going to run him out of here a few weeks ago but a compromise was effected, suitable to all hands. According to its terms, the immigration authorities were allowed to stay on Ellis Island and Carnera was reimbursed for his trouble by getting at least $150,000 for the proposed fight in Chicago.

**What's the "Diff"**

He is committed to accepting 25 percent of the receipts, which ought to do at least $600,000, the commitment having been arranged at a mass meeting of his managers. At least ten managers, including Pedro the Gontus—so called because it rhymes with Lutus—are getting various parts of Carnera's purses. Nobody seems to know what Carnera is getting out of Carnera but maybe this isn't important.

The last offer to Sharkey was a flat guarantee of $125,000, which isn't a privilege at all. It is downright bounty. The terms were communicated to Sharkey by telephone but he was all tired out from a hard day on the front porch and couldn't be bothered. He will get around to it, however.

## PAPER CLAIMS BOUT SETTLED

NEW YORK, Aug. 14—The New York American says today that Jack Sharkey has agreed to terms with Mique Malloy, Chicago promoter, for a bout with Primo Carnera, Italian heavyweight, in Chicago next month.

The American says that Johnny Buckley, manager for Sharkey, has agreed to accept a guarantee of $100,000 with a privilege of 30 per cent of the receipts.

**Earnshaw and Grove Staging Battle for Record.**

By The Associated Press

CHICAGO, Aug. 14—Bob Grove and George Earnshaw, respective leaders of Connie Mack's left and right handed pitchers, are staging an intra-mural strikeout contest for the leadership of the American league.

Grove today had 144 strikeouts in 36 games, while Earnshaw had 140 in 35 engagements.

The competition in the National league was not so close. Wild Bill Hallahan of the St. Louis Cardinals, leading with 125 in 27 games, to 108 in 26 games by Dazzy Vance of Brooklyn.

## ROBINS COME BACK TO SMASH CUBS IN NATIONAL RACE, 15-5

**Al Lopez and Wally Gilbert Lead in Attack on Bruin Pitchers.**

By International News Service

NEW YORK, Aug. 14—The Chicago Cub pitcher who faces the rollicking Robins today is liable to be laughed right out of the box. The Dodgers giggled away five Bruin hurlers yesterday to the merry chuckle of 15 to 5 and as they line up this afternoon for the third battle of the series that may mean the National league pennant the rejuvenated flock was only a couple of points behind in the count column.

With their pin feathers dragged in the dust of five defeats the Robins finally adjusted their clouting wings and soared away in one of the batting spread-eagles that made them the sensation of 1930 baseball. Led by Wally Gilbert and Al Lopez, who each walloped four safeties, the Robinettes collected 18 hits and made 'em all count. The sole bright spot on the Cubs was homer No. 40 by Hefty Hack Wilson.

Freddie Lindstorm struck a happy homer in the tenth and turned shadow into sunshine for the Giants, as they won from the Cincinnati Reds, 7 to 6.

The superb George Earnshaw downed the Cleveland Indians with eight hits and the A's basketed it, 7 to 2. It was his 18th win of the season.

Earle Combs homered with two on to feature the Yankees 10 to 8 win over Detroit.

Hadley was highly effective for Washington except in one inning and the Senators triumphed over the White Sox 7 to 4.

Kremer tightened after a bad start and aided by Paul Waner's four-baser with Brother Lloyd, the Pirates rolled away the Phillies 8 to 4.

Goose Goslin drove in four runs in defense on Pitcher Walter Stewart to register a 7-2 victory for the Brownies over the Ruddy Sox of Boston.

The Cards and Braves did not play.

## HUBER, ROUNDHOUS TEAMS EVEN CHOIC

It'll be your guess against the next guy's this evening when Huber and the Erie Roundhouse go seven rounds or more to a decision for the Industrial league championship of our fair city. The place is the new McKinley Park diamond, the time 6:00 p. m.

It's the dedication of the new south-end diamond with short talks by three of our public officials the feature. Then too, Mayor L. Don Jones is to toss the first ball, following out a custom as old as baseball, and the game will be on. The festivities will start at 6 p. m. and the game as soon afterwards as possible.

**Anybody's Game**

As for the winner of the game it may be the Huber nine, it may be the Erie team. Far be it from me to try to name one. Anyway it should be a wow of a game, and then again it may not be any game at all. If Benny Crabtree is in the pitching mood he was against the Shovel Club and Fairfield last week, the Lord up above help the Roundhouse boys. But then Mr. Crabtree may not be in that form and if he isn't the Lord assist the Huber. Anyway you look at it Oscar it's all a bunch of hooey.

Just glancing over the respective merits of the two teams it looks as if purely hitting power will decide the game. Both teams boast a string of good, powerful hitters while neither has an exceptionally good moundsman. The catchers, George Hinklin and Hack Wilson are possibly even although we would be inclined to give the Huber receiver a slight edge Crabtree is at least as good a pitcher as Shoemaker and a much better hitter.

**Better Than Average**

Both teams boast first sackers in Eddie Simmons and Joe Lang. Both are southpaws and good hitters. The supporters of each team will probably claim theirs is the better but it's an even-stephen there as far as we're concerned.

Edgington and Sammy Sharrock are possibly even at shortstop although the Huber shortfielder will outhit Sammy over any length of time. Sloat is a 100 percent better sn[ack]er than Roundhouse can p[ut] the field and one of the most da[n]gerous hitters in the Huber lineup, [n]ever Hosey Williams almost [s]ent this up with his distinct margin. Weisz, Huber third sacker. If [W]illiams has a good day he'll be on [o]f the most dangerous fielders and [b]ers on the railroad nine.

I'd hate to give either outfield margin over the other although presence of Fido Robbins ha[s] carry some weight. But then O'Connell won't rank so far ba[ck] Fido either. Armbruster, Huber [f]ielder has been playing a great [d]efensive game, while Burke, Hi[s] other gardener, started the ba[d] rally that beat Bacon last week.

Well after we're all through still looks even. Well, see you evening. Don't miss it.

# GROCERS, PROSPECT DEADLOCKED AGAIN

## COMMERCIAL TEAMS BATTLE TO 4-4 TIE IN BENEFIT CONTEST

### Somerlot Holds Firemen to Trio of Hits, but Walks Are Costly.

BY BOB ELLIOTT

Ho-Hum! Those Serv-U-Wel and Prospect baseball teams are at it again. Yes sir, another tie. This time the score was 4 to 4 the game being called at the end of the eighth inning, this making 28 complete frames these two teams have played trying to finish their second round engagement. The first game went 11 innings to a 2 to 2 tie, the second nine innings to a 10 to 10 deadlock and now last evening's eight-inning fray, ending 4 to 4.

The scoring last evening was confined to two innings, the Firemen scoring all their runs in the first half of the second while the Grocers waited until the last of the sixth before they unloosened an attack on Dutch Lauer that tied up the game

**Too Many Walks**

Walks beat Somerlot, the Grocer pitcher, as he gave up only three hits in the eight innings, and received good support. On the other hand the Serv-U-Wel team drove out nine safeties off Lauer but couldn't bunch them except in the sixth.

Prospect started the second when Chapman singled into center. Thomas Johnson and Lauer then walked in succession, the latter pass forcing in Chapman with the first run. Then Seiter, Prospect third sacker, lined a hit into left for three bases, cleaning the sacks. Somerlot got his control back and forced Houser to pop to Walters, Mantz to fly to Neal and struck out T. Lauer.

After that the Firemen didn't have a chance except when Somerlot started walking them again. The Grocer moundsman didn't give up a single hit after the third inning, only three men reaching first in the last five frames, these all by walks.

**When They Started**

The Serv-U-Wel boys were docile enough against Lauer up to the sixth but then got started. Neal opened with a double into center and Somerlot drew a walk. Marshall's single sent Neal across, Somerlot taking third. Shields hit to Chapman whose throw to Johnson caught Somerlot, Marshall going to third.

W. Jerew hit to Chapman who made a perfect throw to first only to see T. Lauer drop the ball, Marshall scoring, Shields going to third and W. Jerew taking second. C. Jerew popped to Chapman for the second out but Smallwood lined a hit over shortstop scoring Shields and W. Jerew with the tying runs. Walters doubled into left sending Smallwood to third but Conkle went out Lauer to Lauer.

The Grocers had a good chance to win the game in the eighth but with two out and the bases full, Neal popped out to Johnson.

**Gate of $37.60**

The receipts at the game which was played as benefit tilt for Bill Steinmetz, Grocer left fielder, who injured his leg in a recent game, totaled $37.60. This amount was much better than those arranging the game expected.

These two teams will probably not play off the tilt unless the Prospect team succeeds in defeating the Kappas tomorrow night. If this happens, the Firemen and Grocers will have to play as the pennant will hinge on the result.

Fielding honors of the game last evening went to Seiter, Prospect third sacker, who accepted ten out of eleven chances and Chapman, Prospect shortstop whose one-handed stop of C. Jerew's hard grounder between short and third stopped a possible Grocer rally.

## BIG BILL UP AGAINST COLLEGE NET FLASH

### Tilden Battles Clifford Sutter in Quarter-Final Round of Tennis Tourney at Rye.

By International News Service

RYE, N. Y., Aug. 14—Life for Big Bill Tilden these days is just one battle after another with some ambitious youngster anxious to knock off the old master and list his name among the select few who can say, "I have beaten Tilden."

This afternoon in the quarter-final round of the eastern grass court tennis championships at the Westchester Country Club, it will be Clifford Sutter, 19-year-old Tulane university varsity captain, who will attempt to put the skids under the leader of the old guard.

Although the old master is a favorite against Sutter, Big Bill's veteran doubles partner, Frank Hunter, enjoys no such favored position in his match with Johnny Van Ryn, youthful Davis cup star who smothered Eddie Jacobs yesterday in two easy sets.

Dick Murphy, the youngster who put out Junior Coen at Southampton last week is slated to oppose Berkeley Bell, and Clayton Burwell, North Carolina, is listed against Gregory Mangin in the other quarter-final matches.

The Baroness Giacomo Giorcio Levi added Ruth Oexman, Cincinnati star, to her list of victims in the third round, and she is a strong favorite to conquer Dorothy Andrus, the Stamford heiress, and enter the semi-final round.

Alice Francis, whom the Baroness will probably meet in the semi-finals, and Mary Greef and Midge Gladman, ranking players in the upper half of the draw, no more like opposing a chop-stroker than did Ethel Burkhardt, the California star who lost to Baroness Levi on Tuesday.

## RICH OPEN ATTRACTS STAR PRO GOLFERS TO ST. PAUL COURSE

### Tourney Starting Friday worth $10,000 to Winner; Tough Layout.

By The Associated Press

ST. PAUL, Minn., Aug. 14—Arriving by plane, automobile and train the country's top flight professionals began their last serious workouts today on the Keller Course, where the St. Paul $10,000 open starts Friday.

Flocks of birdies and eagles have sprung from the 6,552 yard par 72 layout since yesterday, with the result several have nominated themselves pre-tournament favorites. Johnny Farrell, Mamaroneck, N. Y., heads the list by virtue of a 67. Behind him comes Gene Sarazen of Flushing, N. Y., who carded a 68, and Harry Cooper of Glen Ellyn, Ill., with a 69.

Johnny Dawson, unattached Chicago player who is trying to convince United States Golf Association he is an amateur, is ranked among those who are expected to finish close to the top by a virtue of a 69 Tuesday, but he needed a 73, one over par, yesterday.

Walter Hagen, and Tommy Armour, who are expected to arrive today, will be among those applying the final test to the course, which is expected to draw 280 participants for the four rounds.

## MALLOY OFFERS GOB FLAT GUARANTEE OF $125,000 FOR FIGHT

### Carnera for Proposed Scrap; Money Doesn't Worry Him.

BY DAVIS J. WALSH
I. N. S. Sports Editor

NEW YORK, Aug. 14—With a single unimportant exception—he was only one of the prize fighters—everybody seemed agreed today that the Sharkey-Carnera fight had practically been made for Chicago on the night of September 20 and may Allah protect the ring's foundations.

Carnera, his manager and the managers of his managers were for it. So was Miguel Malloy, the new boy from up the block who has come down to play on the Garden's sidewalk. Johnny Buckley, who manages Sharkey after business hours, said he was for it as he bowed himself off the asphalt on to the midnight train for Boston.

To be frank, he was speaking strictly for John Buckley. When the time comes, he will speak for Sharkey directly after Sharkey speaks for himself.

**Plenty of Backing**

A nod of the latter's head, it seems, now stands between Miguel Malloy and his first time in the course money. His backing? Mr. Malloy is glad the question is asked because, it appears, his backing is everything a man could wish. He isn't worried about his backing because he is fronting for a certain somebody and, looking him over from left to right, one has to admit that he has an ideal front. Anyhow, the Sharkey agents are convinced that Miguel's credentials are quite in order and so is the writer.

Sharkey's hesitancy at the moment is a mere matter of incentive. He must fight at this time only for the sake of staying in the money, whereas Carnera must fight to stay in the country. They were going to run him out of here a few weeks ago but a compromise was effected, suitable to all hands. According to its terms, the immigration authorities were allowed to stay on Ellis Island and Carnera was reimbursed for his trouble by getting at least $150,000 for the proposed fight in Chicago.

**What's the "Diff"**

He is committed to accepting 25 percent of the receipts, which ought to do at least $600,000, the commitment having been arranged at a mass meeting of his managers. At least ten managers, including Pedro the Goatus—so called because it rhymes with Lutus—are getting various parts of Carnera's purses. Nobody seems to know what Carnera is getting out of Carnera but maybe this isn't important.

The last offer to Sharkey was a flat guarantee of $125,000, which isn't a privilege at all. It is downright bounty. The terms were communicated to Sharkey by telephone but he was all tired out from a hard day on the front porch and couldn't be bothered. He will get around to it, however.

## PAPER CLAIMS BOUT SETTLED

NEW YORK, Aug. 14—The New York American says today that Jack Sharkey has agreed to terms with Mique Malloy, Chicago promoter, for a bout with Primo Carnera, Italian heavyweight, in Chicago next month.

The American says that Johnny Buckley, manager for Sharkey, has agreed to accept a guarantee of $100,000 with a privilege of 30 per cent of the receipts.

It'll be your guess against the next guy's this evening when Huber and the Erie Roundhouse go seven rounds or more to a decision for the Industrial league championship of our fair city. The place is the new McKinley Park diamond, the time 6:00 p. m.

It's the dedication of the new south-end diamond with short talks by three of our public officials the feature. Then too, Mayor L. Don Jones is to toss the first ball, following out a custom as old as baseball, and the game will be on. The festivities will start at 6 p. m. and the game as soon afterwards as possible.

**Anybody's Game**

As for the winner of the game it may be the Huber nine, it may be the Erie team. Far be it from me to try to name one. Anyway it should be a wow of a game, and then again it may not be any game at all. If Benny Crabtree is in the pitching mood he was against the Shovel Club and Fairfield last week, the Lord up-above help the Roundhouse boys. But then Mr. Crabtree may not be in that form and if he isn't the Lord assist the Huber. Anyway you look at it Oscar it's all a bunch of hooey.

Just glancing over the respective merits of the two teams it looks as if purely hitting power will decide the game. Both teams boast a string of good, powerful hitters while neither has an exceptionally good moundsman. The catchers, George Hinklin and Hack Wilson are possibly even although we would be inclined to give the Huber receiver a slight edge Crabtree is at least as good a pitcher as Shoemaker and a much better hitter.

**Better Than Average**

Both teams boast first suckers in Eddie Simmons and Joe Lang. Both are southpaws and good hitters. The supporters of each team will probably claim theirs is the better but it's an even-stephen there as far as we're concerned.

Edgington and Sammy Sharrock are possibly even at shortstop although the Huber shortfielder will outhit Sammy over any length of time. Sloat is a 100 percent better second sacker than Roundhouse can put on the field and one of the most dangerous hitters in the Huber lineup. However Hosey Williams almost ever this up with his distinct margin over Weisz, Huber third sacker. If Williams has a good day he'll be one of the most dangerous fielders and clubbers on the railroad nine.

I'd hate to give either outfield any margin over the other although the presence of Fido Robbins has to carry some weight. But then Skip O'Connell won't rank so far back of Fido either. Armbruster, Huber right fielder has been playing a great defensive game, while Burke, Huber other gardener, started the batting rally that beat Bacon last week.

Well after we're all through it still looks even. Well, see you this evening. Don't miss it.

# CHILD, 7, SHOT ACCIDENTALLY

### Expected To Recover from Wounds Received When Gun Is Dropped.

Special To The Star

KENTON, Aug. 14—Virginia, seven-year-old daughter of Mr. and Mrs. Holmes B. Lingo of near Mt. Victory, is recovering in Antonio hospital from shot gun wounds received when a gun accidentally discharged while she was playing at her home.

A small leaden pellet penetrated the abdomen and two others inflicted slight wounds on the forehead and leg. The wounds while serious are not necessarily fatal, attending physicians state.

The mishap occurred when the gun carried by a member of the family struck the ground being accidentally discharged. The bullets which struck the girl glanced after hitting the ground.

Joyous Foot Bath Then Lift Out

**CORNS**

Root and All—Out To Stay!

Two tablespoonfuls of that amazingly refreshing and foot invigorating Radox to one gallon of water makes a footbath which after 3 to 4 night's soaking lifts out aching, maddening corns, callouses, too—root and all.

Radox softens the hard outer layers of corn—and oxygen which Radox liberates, enters the pores, each night penetrating further and further, carrying the salts right to root of corn which can be lifted out bodily.

Wonderful to take out pain and burning and refresh tired feet!

Get a package of Radox at Bradley's Drug Store or any drugstore and know the joyous comfort of corn and callous free feet—Radox is the modern, scientific method to remove corns which completely eliminates old fashioned plasters, dangerous cutting, skin destroying acids and obsolete methods.—Adv.

# FLAMES LEVEL BARNS, SHEDS

### Loss in Fire Near Kirby Estimated at $2,000; Grain Is Destroyed.

Special To The Star

UPPER SANDUSKY, Aug. 14—Fire believed to have originated from a burning straw stack destroyed two barns, two small sheds and a granary on the Frank Kin farm, one mile west of Kirby on the Forest road, yesterday afternoon. The fire was discovered at 1 p. m. by I. R. Maukel, of this city, and Glen Bare, of Sycamore, who were driving by at the time.

The Crane township fire truck and the Wharton fire truck were called but by the time they arrived the fire had gained such headway that they could only be used to protect the residence. Besides the buildings, about 15 tons of hay and 1,200 bushels of wheat, oats and barley were destroyed. Three horses that were in one of the barns and much of the machinery were saved. The loss, which is estimated to be about $2,000, is partly covered by insurance.

# HARTMAN OUT AT RIDGEWAY

### Accepts Position as Head of Versailles Schools; To Name New Superintendent.

Special To The Star

KENTON, Aug. 14—Resignation of J. B. Hartman as superintendent of the Ridgeway public school system was tendered to the board of education there Tuesday. He has accepted the superintendency at Versailles.

The Ridgeway board of education is accepting applications for the vacant position and in all probability will act upon the applications at their next meeting, during the latter part of August. Hartman will take the position left vacant by the employment of Superintendent Everhart, formerly of Versailles, by Ada school board.

Clerk of the board, James A. Cottrell, announced that the new gym nasium and auditorium will be ready for use shortly after the opening of school. The roof was completed this morning and floors now are being constructed. Date of school opening will be Sept. 2 or 8, he said.

# FARM BUREAU EVENT TO BE HELD TUESDAY

### Mt. Gilead Teams To Compete in Preliminary Contest to State Fair Meet.

Special To The Star

MT. GILEAD, Aug. 14—The county demonstration team elimination and club picnic under the direction of the Farm Bureau will be held Tuesday, Aug. 19. The demonstration team contest will be held in the Mt. Gilead High school gymnasium, starting at 9 a. m. Each club will be entitled to one team for each project they are carrying. # TWO SUE SHERIFF

### Property Held By Official Basis of Court Actions.

BUCYRUS, Aug. 14—Two replevin suits were filed in common pleas court today against Sheriff George Davenport. Damages totaling $300, alleged to be due him are sought by William and Paul Rinehart against George Davenport.

The petition states that the plaintiff is entitled to an undivided half interest in 60 acres of oats which are in the possession of the Monnett Elevator Co., now in the hands of the sheriff.

The other petition was filed by the Commercial bank of Marion, O., and names the sheriff and John W. Rinehart as defendant. The bank claims, by reason of a mortgage, one-half interest in 4,000 bushels of oats. Damages of $200 are sought in the second suit, charging wrongful detention of the property in question.

### Mansfield Youths Will Plead Today to Indictments in Fatal Shooting.

Special To The Star

BUCYRUS, Aug. 14—Today at 1 p. m. was set by attorneys for the arraignment before Judge J. Walter Wright of three Mansfield youths, Earl Sites, Kenneth McCarthey and Fred Massa, who were indicted last week for first degree murder in connection with the slaying of Ralph Wilcox, Galion filling station attendant.

Attorneys for the three men appointed by the court are Attorney E. J. Myers for Massa; George W. Coble for McCarthey and Mat Mosbacher for Sites.

Pat Bahnsen, also indicted by the same grand jury charging grand larceny, in connection with the automobile theft ring recently exposed here by Sheriff George Davenport, will also be arraigned this afternoon. Attorney E. J. Myers is acting as counsel for Bahnsen.

Harry Slagle, employed by Bahnsen, proprietor of the establishment, was sentenced to an indefinite term in Mansfield reformatory when arraigned Monday. He pleaded guilty.

## OHIO NATURALIST DIES

By The Associated Press

ASHTABULA, O., Aug. 14—An attack of apoplexy caused the death of Dr. R. D. Snyder, 62, widely known naturalist and for 32 years a practicing physician here. The sudden death of a patient as he was leaving Dr. Snyder's office, is believed to have contributed to the physician's death.

# MAN ESCAPES WHEN TRAIN HITS TRACTOR

### Rainbow Limited in Collision at Crossing in Upper Sandusky.

Special To The Star

UPPER SANDUSKY, Aug. 14—A tractor belonging to William Heffelfinger, of this city, and being driven by Emmet Young, of Mononcue, was wrecked yesterday afternoon when hit by the Rainbow limited, fast Sylvania flier, at the Fifth street crossing.

A hay bailer was attached to the tractor but only the tractor reached the tracks when the westbound train struck it.

Mr. Young saw the approaching train in time to jump to safety. Most of the wreckage was carried several blocks before it was removed from beneath the train. The engine of the train was slightly damaged by the impact of the collision.

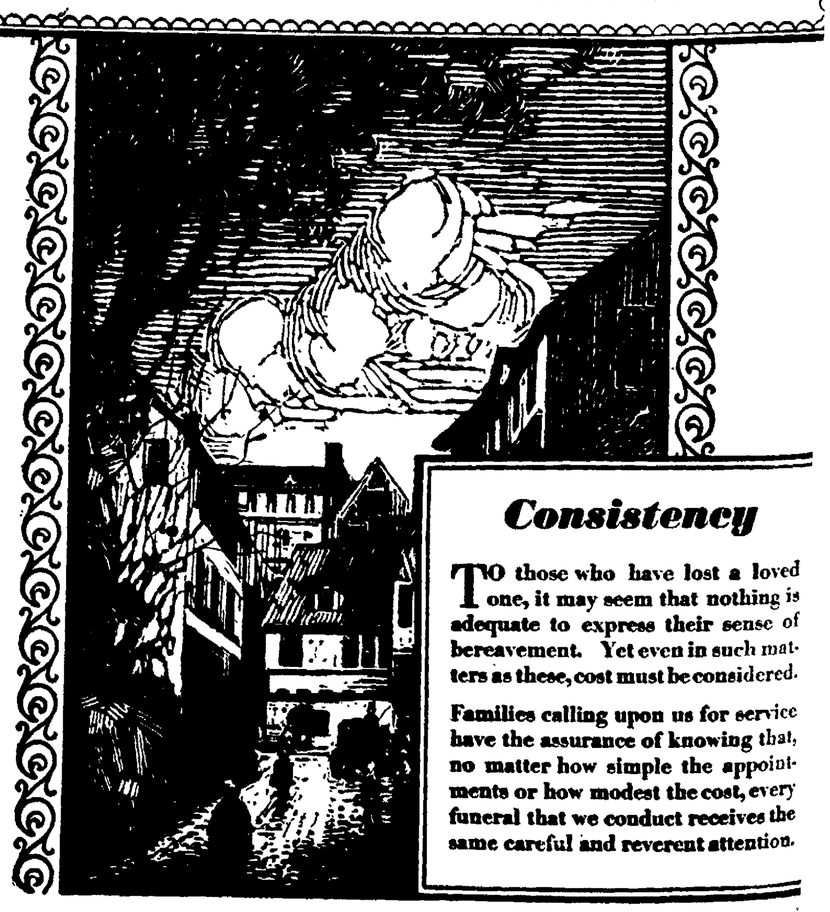
"DEPENDABLE FUNERAL SERVICE"

Telephone 2262 360 East Center Street.



**Consistency**

TO those who have lost a loved one, it may seem that nothing is adequate to express their sense of bereavement. Yet even in such matters as these, cost must be considered.

Families calling upon us for service have the assurance of knowing that, no matter how simple the appointments or how modest the cost, every funeral that we conduct receives the same careful and reverent attention.

## THIMBLE THEATER — BY SEGAR

YA SAID YOU WAS UP LATE LAST NIGHT, WHAT'D YA MEAN?
MY MIND OR WHAT EVER IT IS WAS - NOT MY BODY
I SUPPOSE HE MEANS BY THAT, THAT HIS MIND DID NOT REST WITH HIS BODY DURING THOSE TWENTY YEARS OF SUSPENDED ANIMATION
YEAH - I SUSPOSE THA'S IT
WHEN DOCTOR WATTLEY WAS BROUGHT HERE I NOTICED A FILM OVER HIS EYES— NATURE HAD BEEN AT WORK THE FILM KEPT HIS EYE BALLS FROM WITHERING
IS THAT A FACK?
YEAH?
I OPERATED AND REMOVED THE FILM — HIS SIGHT NOW IS NORMAL - NOW I FIND THE PORES OF HIS SKIN ARE CLOSED — NATURE DID THAT TO KEEP THE MOISTURE IN HIS BODY, OTHERWISE HE WOULD HAVE SHRIVELED UP.
NACHER SURE KNOWS HER ANCHOVIES!
MY ASSISTANTS ARE GIVING HIM BATHS TO CLEAR THE PORES - IF THEY SUCCEED HE WILL BE IN FAIRLY GOOD SHAPE
SUPPOSE YOU, ALONE IN A ROOM LOOKED INTO A MIRROR AND THE IMAGE YOU SAW THERE WAS NOT OF YOURSELF?— SUCH A THING, ACCORDING TO A FEW OF THE WORLDS DEEPEST THINKERS, IS POSSIBLE!!
THERE IS SOMETHING STRANGE - SOMETHING STARTLING ABOUT THE MAN TAKEN FROM THE OLD HOUSE ON BROWNSTONE HILL

## KRAZY KAT — BY HERRIMAN

I'M SO GLAD THAT 'IGNATZ & OFFISSA PUPP' IS NOT GONNA FIGHT THAT DUEL WITH MR. KUKU WITH BARE FISTS, & KNUCKLES
SO AM I, TO FIGHT WITH FISTS, & KNUCKLES IS SO VULGAR.
NOT ONLY IS IT VULGA, BUT THEY CAN INJURE EACH UDDA SO —
YES.
I'M HEPPY TO HEAR THEY IS GONNA DO IT ANUDDA WAY —
WITH SWORDS & PISTOLS?
NO, WITH WEPPINS.

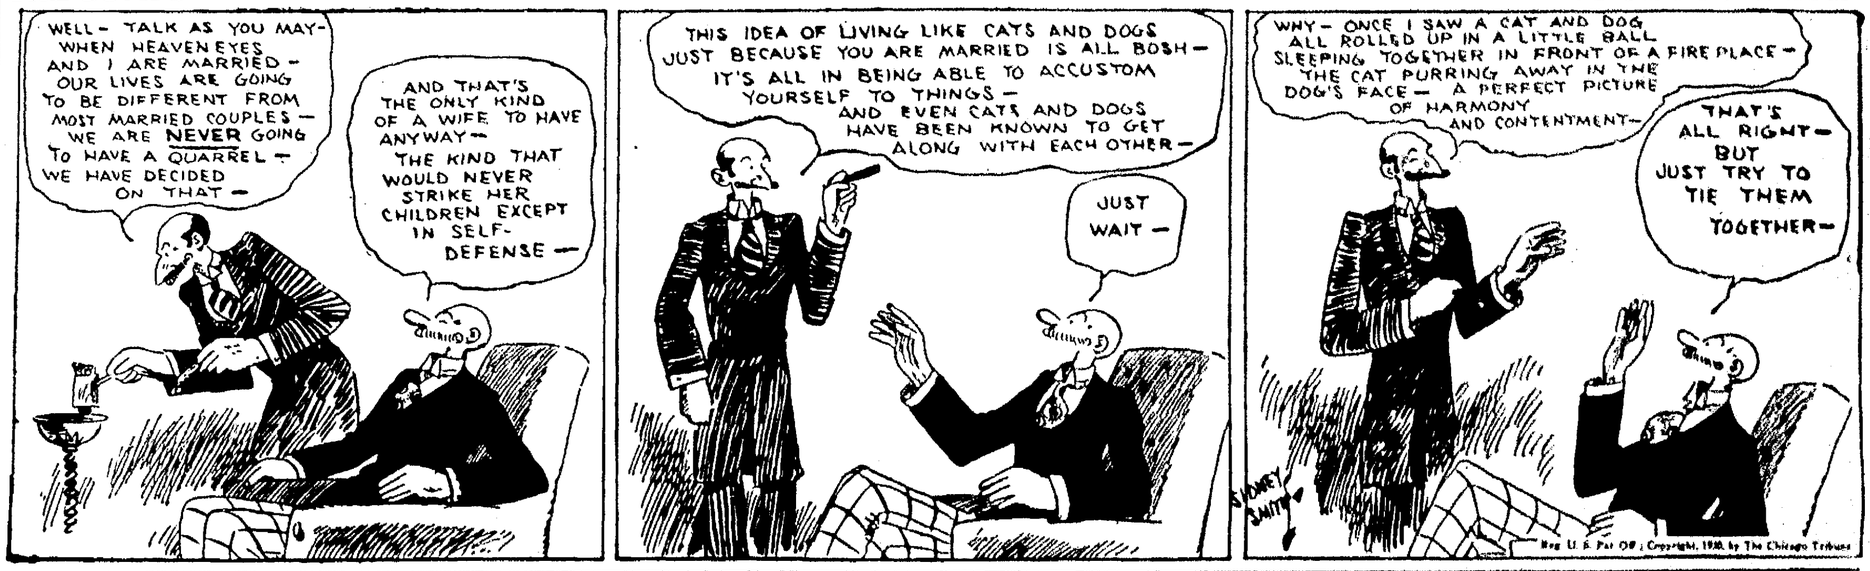
## THE GUMPS — BY SIDNEY SMITH



WELL - TALK AS YOU MAY - WHEN HEAVEN EYES AND I ARE MARRIED - OUR LIVES ARE GOING TO BE DIFFERENT FROM MOST MARRIED COUPLES — WE ARE NEVER GOING TO HAVE A QUARREL — WE HAVE DECIDED ON THAT —
AND THAT'S THE ONLY KIND OF A WIFE TO HAVE ANYWAY — THE KIND THAT WOULD NEVER STRIKE HER CHILDREN EXCEPT IN SELF-DEFENSE —
THIS IDEA OF LIVING LIKE CATS AND DOGS JUST BECAUSE YOU ARE MARRIED IS ALL BOSH — IT'S ALL IN BEING ABLE TO ACCUSTOM YOURSELF TO THINGS — AND EVEN CATS AND DOGS HAVE BEEN KNOWN TO GET ALONG WITH EACH OTHER —
JUST WAIT —
WHY - ONCE I SAW A CAT AND DOG ALL ROLLED UP IN A LITTLE BALL SLEEPING TOGETHER IN FRONT OF A FIRE PLACE — THE CAT PURRING AWAY IN THE DOG'S FACE — A PERFECT PICTURE OF HARMONY AND CONTENTMENT —
THAT'S ALL RIGHT — BUT JUST TRY TO TIE THEM TOGETHER —

JOHN J. FRANCIS,
Sheriff, Marion County, Ohio.
W. N. Harder, Attorney.

### NOTICE TO DEFENDANTS

In the Probate Court of Marion County, Ohio. Case No. 16[illegible]
William N. Harder, Administrator of the estate of Lauren L. Bruck, deceased, Plaintiff,
vs.
Clara G. Bruck, et al., Defendants.

Clara G. Bruck, whose last known residence was 837 S. 19th Ave., Maywood, Cook County, Illinois. Clara Bruck, whose last known residence was 837 S. 19th Ave., Maywood, Cook County, Illinois; Homer D. Bruck, whose last known residence was Jackson Blvd., Forest Park, Cook County, Illinois; Corwin T. Bruck, whose last known residence was S 19th Ave., Maywood, Cook County, Illinois; Laura M. Day, whose last known residence was 1499 W. Monroe St., Chicago, Cook County, Illinois and Persis E. Stone, whose last known residence was 1238 Third ave. in the City, County and State of New York, will take notice that William N. Harder, administrator of the estate of Lauren L. Bruck, deceased, on the 8th day of March, 1930, filed his petition in the Probate Court of Marion County, Ohio, alleging that the personal estate of said decedent is insufficient to pay his debts and charges of administering his estate that he died seized in fee simple of the following described real estate, to-wit:

Situated in the City of Marion, County of Marion and State of Ohio, to-wit:

TRACT 1. Being a part of Lot Number Fourteen (14) in the City of Marion, Ohio, described as follows:

Commencing at the intersection of the south line of East Church Street with the west line of Greenwood Street; thence west along the south line of Church Street fifty-one (51) feet; thence south parallel with the west line of Greenwood Street one hundred fifty (150) feet to the south line of lot of land formerly owned by Mary H. Day; thence east on the south line of said lot to the west line of Greenwood Street; thence north on the west line of Greenwood Street to the place of beginning.

TRACT 2. Being a part of Lot Number Fourteen (14) in the City of Marion, Ohio, described as follows:

Commencing at a point in the line of East Church Street fifty-one (51) feet west of the intersection of the south line of Church Street with the west line of Greenwood Street; thence west along the south line of Church Street fifty-two (52) feet; thence south parallel with the west line of Greenwood Street one hundred fifty (150) feet to the south line of lot of land formerly owned by Mary H. Day; thence east on the south line of said lot fifty-two (52) feet; thence north parallel with the west line of Greenwood Street to the place of beginning.

TRACT 3. Being a part of Lot Number Fourteen (14) in the City of Marion, Ohio, described as follows:

Commencing at a point in the line of East Church Street one hundred three (103) feet west of the intersection of the south line of Church Street with the west line of Greenwood Street; thence west along the south line of Church Street 53.50 feet more or less to the west line of land formerly owned by Mary H. Day; thence south along the west line of said lot one hundred fifty feet to the south line of said lot; thence east along the south line said lot 53.50 feet more or less to a point one hundred three (103) feet west of the west line of Greenwood Street; thence north parallel to Greenwood Street to the place of beginning.

On July 15th, 1930, the said William N. Harder as such administrator filed his amendment to said petition making Persis E. Stone and Laura M. Day parties thereto.

The prayer of said petition and amendment thereto is for the sale of said real estate to pay the debts and charges aforesaid that plaintiff having mortgage or other liens on said real estate be required to answer setting forth the particulars of their said liens, that said real estate be sold free of dower, that all persons claiming any interest or liens in said real estate may be required to answer setting forth the particulars of their said claims or liens and be forever barred of any interest or claim in said real estate and for such other proper orders and relief as to the premises.

The said Clara G. Bruck, Clara Bruck, Homer D. Bruck, Corwin T. Bruck, Laura M. Day and Persis E. Stone are hereby notified that they have been made parties defendant to said petition and amendment thereto and that they are required to answer the same on or before the 6th day of September, 1930, or judgment will be taken accordingly.

WILLIAM N. HARDER,
Administrator of the estate of Lauren L. Bruck, deceased, Plaintiff.

### RECEIVER'S SALE OF REAL ESTATE

# IRREGULARITY RULES STOCKS

## Number of Favorites Recover from Slumps; Others Forced Down.

NEW YORK, Aug. 14—Dullness and irregularity ruled in the stock market today. While a number of the speculative favorites made further recoveries from the early slumps, reactions selling in other sections of the list forced prices steadily lower. Transactions up to the noon period totaled only 662,000 shares, or about 50 per cent as many as in the same period yesterday.

A point dip in Republic Iron and Steel to 32¾, the lowest price in two years, reflected the market's uneasiness over the dividend. Industrial Alcohol was weak for the same cause, the stock settling down to a new low for 1930. Standard Oil of New Jersey, above 70, was the outstanding strong spot in the industrials, though United States Steel was in good form most of the day, with good demand around 160.

Trade, industrial and business news today was unchanged, and not sufficient to show any new trend in important trade lines. Wall Street views that the drouth damage reports have painted too drab a picture of the agricultural districts and that in the end the loss and damage will be far under present estimates. For this reason the big bears have maintained a hands-off policy, and short selling has been in small volume in the last few days.

# Today in Marion Market

## Groceries, Produce, Meats, Grain, Livestock

No changes were recorded today in prices on the Marion provision market. Butter continued to retail a cent cheaper here than in Cleveland and the larger cities.

Home grown pimentos of fairly high quality were put on the market for the first time today. They are selling at three and four for 10 cents.

Canning pickles are also commencing to be brought in fairly large quantities. The crop is reported to be rather short this summer owing to the dry weather. The quality of the product is said to be about as good as usual. They are selling at from 50 cents to $1 a hundred.

# RAINS CAUSE GAIN IN WHEAT

## Reports of Wet Weather in Europe Lead to Material Upturns.

By The Associated Press

CHICAGO, Aug. 14—Reports of wet weather in Europe hampering the harvest there led to material but transient upturns early today in wheat values here. Liverpool wheat quotations displayed relative strength in the face of yesterday's weakness on this side of the Atlantic. Corn prices at first showed themselves responsible to wheat market advances, but subsequently gave way as a result of numerous showers over the corn belt and of forecasts of more. Opening ⅜@1⅜ cents higher, Chicago wheat afterwards fluctuated rapidly and later affected by downturns in corn dropped to well below yesterday's finish. Corn started at ¼ cent off to ½ cent up, scored gains all around, and then underwent a sharp general break.

Rallying from the effect of corn price setbacks, the wheat market much of the time today hovered at about yesterday's closing figures, helped by indications of fairly liberal export business in domestic hard winter wheat. Meanwhile, advices of bad weather in Europe continued, especially from France, where excessive dampness was reported to be further lowering the quality of wheat. On the other hand, notice was taken of figures showing that Canadian stocks of wheat were now nearly double those of a year ago.

Corn prices sagged as much as 2½c a bushel at one stage today on account of somewhat better moisture supplies, present and prospective. However, many traders leaned to a view expressed by a leading authority that it was too late for rain to materially enlarge the volume of the corn crop, and that about all that could be expected was to put an end to further increase of crop losses. He said though that the rainfall which has been received in spots would be of tremendous benefit toward improving pastures, and preparing the soil for fall plowing. Oats averaged lower with corn.

Provisions started firm, but receded when grains showed weakness.

## Well Developed Dairy Cow Produces More Milk

DURHAM, N. H.—That large, well developed dairy cows produce a larger amount of milk than small cows was pointed out here recently by Prof. J. M. Fuller of the University of New Hampshire.

Buyers, declared Prof. Fuller, are willing to pay more for cows that show type and size. Type is largely inherited, but size is the result partly of inheritance and partly of feed and care.

If the full size permitted by inheritance is to be reached, the future dairy cow must be kept growing from the very first. Undersized calves or young heifers are very likely not to reach full size even though they be fed liberally after first calving.

It might help some to levy a war tax on the aspirants for office.

Few people can afford to indulge in the luxury of envy.

# FIRM SUED FOR $106 BY N. R. HILDRETH

## Sewer Work Done on Recommendation of R. T. Lewis Co. Basis of Action.

A suit to obtain $106 for work in constructing sewers and laying tiles for a lot in Elm Heights addition was filed in common pleas court today by Norton R. Hildreth against the R. T. Lewis Co. and others.

The petition is an outgrowth of an alleged fraud perpetrated against the defendants by a couple giving their names as Charles I. Miller and Mary M. Miller and their address as Cambridge.

The couple allegedly came to Marion on April 21 and obtained a deed from the R. T. Lewis Co. for the lot involved in the suit. The applied for a $4,500 mortgage from the Marion Building, Savings & Loan Co., but before the money was turned over to them the couple, fearing an investigation, left the city. Afterwards it was learned they were imposters and the deed was quieted.

Hildreth alleges that his sewer work was begun on recommendation of the R. T. Lewis Co. and that the character of the man and woman was good.

Carhart & Warner is the law firm acting as the plaintiff's counsel.

### License Granted

A marriage license was issued today in probate court to Elmer Anderson, silk mill worker, of 323 West Fairground street, and Mary Bebout, silk mill worker, of 501 Park street.

### Sues for Divorce

Extreme cruelty and gross neglect are charged by Ceryl B. Gast in a petition for divorce from Nellie Gast filed yesterday in common pleas court.

The petition recites that the couple was married on April 8, 1920, and that they have had no children.

J. D. Williamson is attorney for the plaintiff.

### Files Answer

Dismissal of his wife's' petition for divorce is asked in an answer filed yesterday in common pleas court by J. Arthur Miller, defendant in an action brought by Etta Mae Miller. The husband asks that he be awarded half of the property now held jointly by the couple. He is represented by the law firm of Carhart & Warner.

### Sales Are Confirmed

Sale of property involved in three foreclosure actions was confirmed by common pleas court yesterday. Deeds and distribution of proceeds were ordered.

The actions were brought by the American Building & Loan Co. against Frank M. Allen and Ethel Z. Allen; the Citizens Building & Loan Co. against Emmett E. Caylor and others, and Bert J. Shelton, as county treasurer, against John W. McQuiston.

### Named by Court

Probate court has appointed Marguerite Smithson as administratrix of the estate of Cecil Guy Smithson.

### Claims Error

Errors of the record are claimed by George Benzler in a petition in error filed in common pleas court yesterday in which he asks that a $50 fine for contempt of court be lifted.

The fine was assessed some time ago when Benzler was charged with having failed to purchase property of the estate of Robert H. Niggles on which he bid at a public sale.

**OBITUARY**

Lucinda Jane Emery, daughter of James and Rachel Emery, was born in Richland township, Marion County, Ohio, on Dec. 19, 1858, and departed this life on Aug. 5, 1930, at the age of 71 years, seven months, 16 days. She was of a family of twelve children, seven of whom preceded her in death, leaving Mrs. Anna Lowther of Ft. Wayne, Ind., James M. Emery of Oskaloosa, Ia., Benjamin F. Emery of Marion and C. V. Emery of Prospect at whose home death came suddenly and unexpected. From her childhood she was religious and when just a girl she became a Christian and united with the St. James Methodist Episcopal church of Richland township and later transferred her membership to Olive Branch, United Brethren church in Waldo township. When this church was abandoned she felt the need of a church home and entered her membership with the Oakland Evangelical of Marion where she continued to be affiliated until her death. She was a modest, unassuming woman, kind and helpful in every way that was possible to be of service to those about her. A devout Christian woman, who loved to be with the people of God, and who had great delight in being present at the Sunday school and also the worship service of the church. Her trust was in God, her hope was in Jesus Christ, and with her steadfastness of faith she pointed those about her to her Saviour. Besides the brothers and sister she leaves a number of nieces and nephews and a host of other relatives and friends who mourn not as those who have no hope.

"No one sees the hand that touches
As they leave us one by one,
For 'tis the Saviour whispers,
'Follow me, I'll guide thee home;'
Swing softly, beauteous gates of death,
To let a waiting soul pass on,
Achievement crowns life's purposes
And victory is forever won.
Swing softly, softly, heavenly gate,
Thy portal passed, no more to roam;
Our traveler finds her journey o'er,
And rest at last in 'Home Sweet Home.'"
